General Setup Instructions

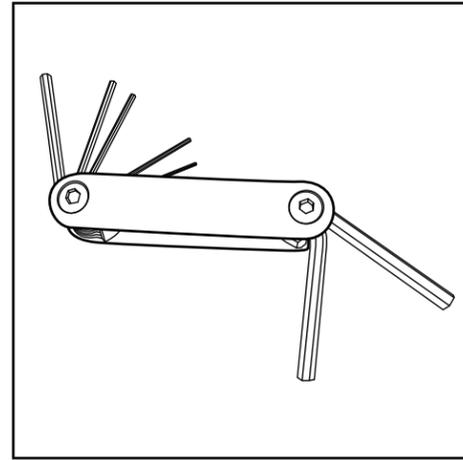

- Read entire setup instruction manual prior to unpacking parts and pieces.
- The setup instructions are created specifically for this configuration.
- Setup instructions are laid out sequentially in steps, including exploded views with detailed explanation for assembly.

Cleaning & Packing

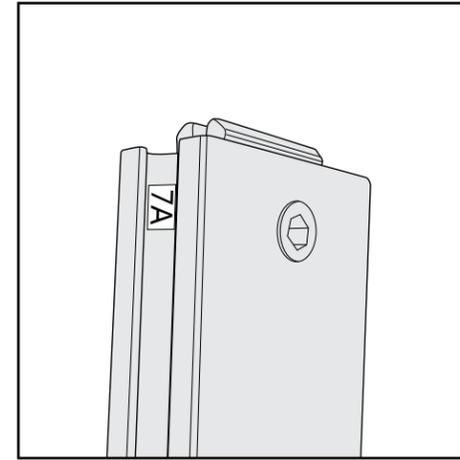

- For Cleaning Metal, Plex, & Laminate Parts: Use a **MILD NON-ABRASIVE** cleanser and soft cloth/paper towel to clean all surfaces.
- Keep exhibit components away from heat and prolonged sun exposure. **Heat and UV exposure will warp and fade components.**
- Retain all provided Packing Materials. All provided packing materials are for ease of repacking & component protection.

Disassembly

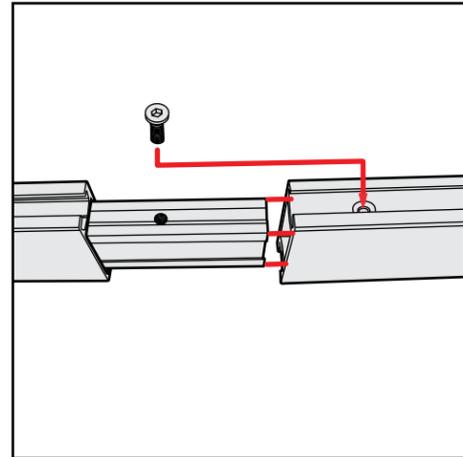

- For loss prevention, tighten all set screws and locks during disassembly.

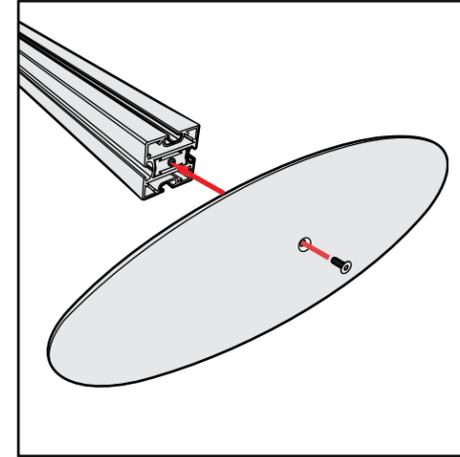

Hex Tool - Essential for Assembly

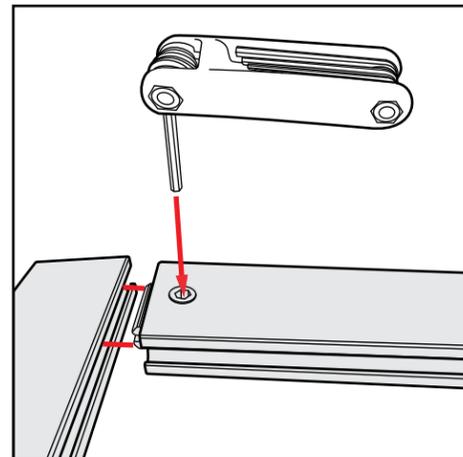

Part Identification - Numbering

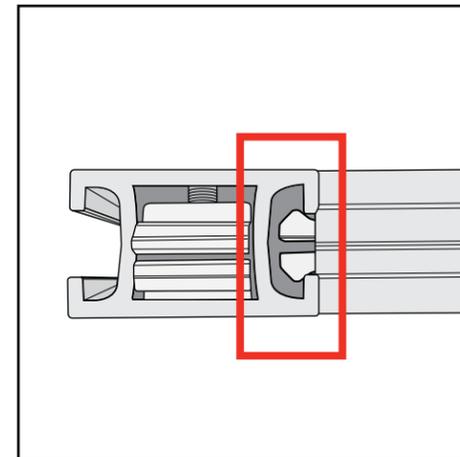

Spline Connection

Base Plate & Extrusion Connection

Extrusion & Lock Connection

Engaged Lock

WARNING

DO NOT USE POWER TOOLS

LADDERS OR LIFTS
MAY BE REQUIRED

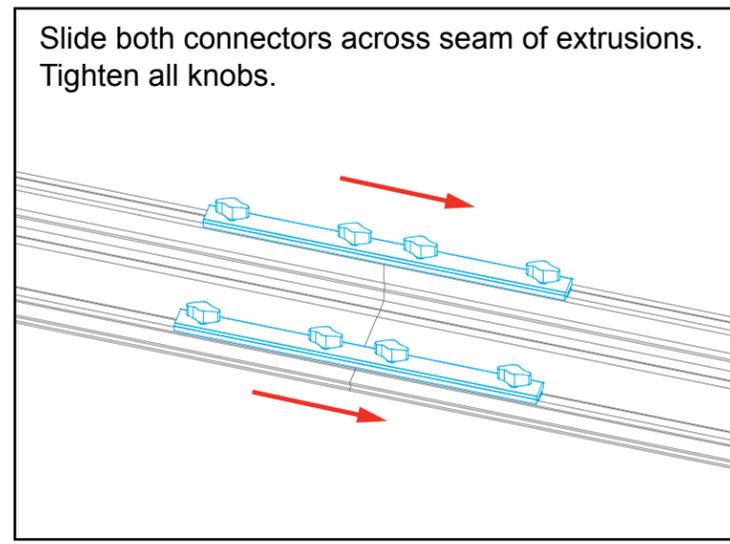

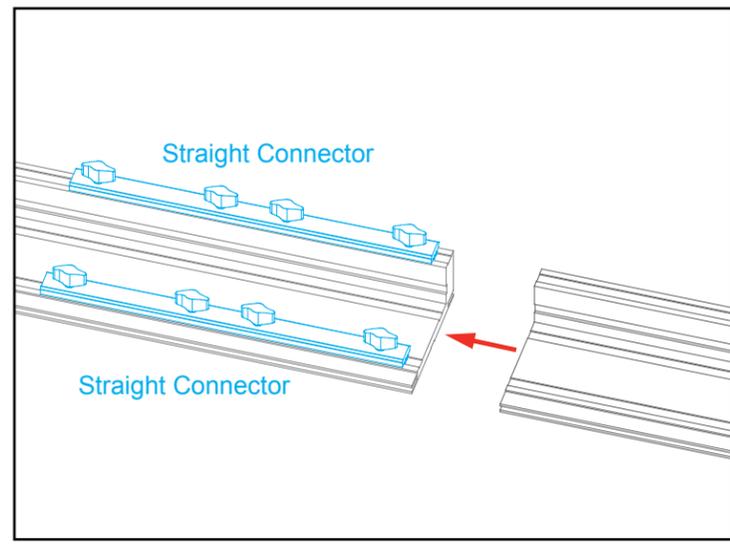

ALL CONNECTIONS MUST
BE TIGHTLY SECURED

Straight Connection

When assembling frame, first attach all **straight connectors**, then attach **corner connectors**.

- 1) Place extrusions end-to-end.
- 2) Loosen all knobs, then slide **straight connectors** across the seam of extrusions.
- 3) Tighten all knobs to secure connection.

All knobs must be tightened securely to ensure a proper connection.

Disassembly

- 1) Loosen all knobs.
- 2) Slide connectors off of one extrusion.
- 3) Tighten knobs to prevent loss during packing & shipping.

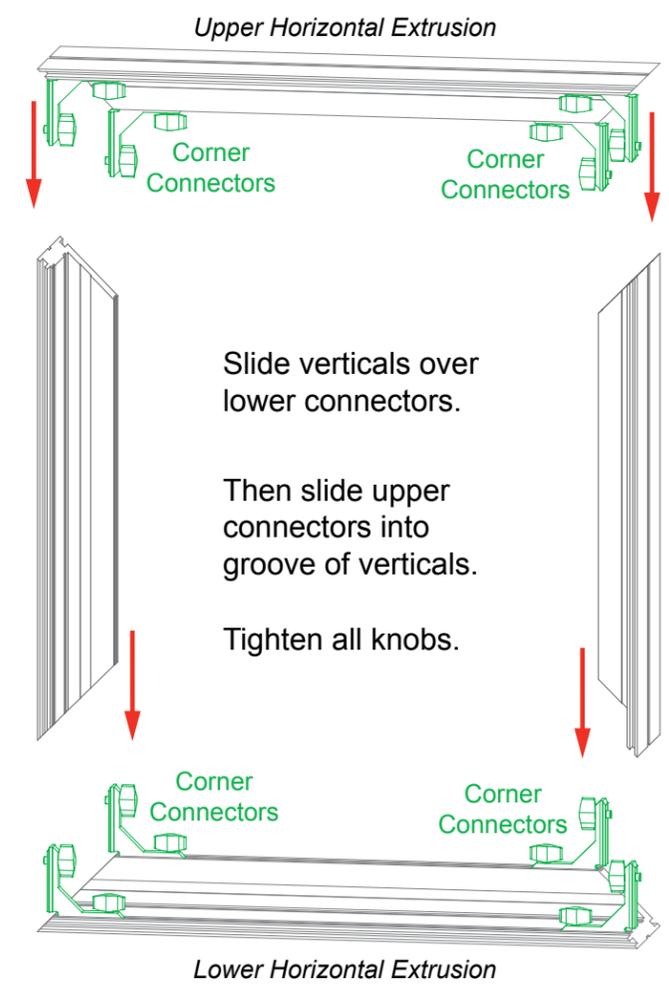

Keep straight connectors in groove of extrusion. Do not remove connectors during disassembly.

Corner Connection

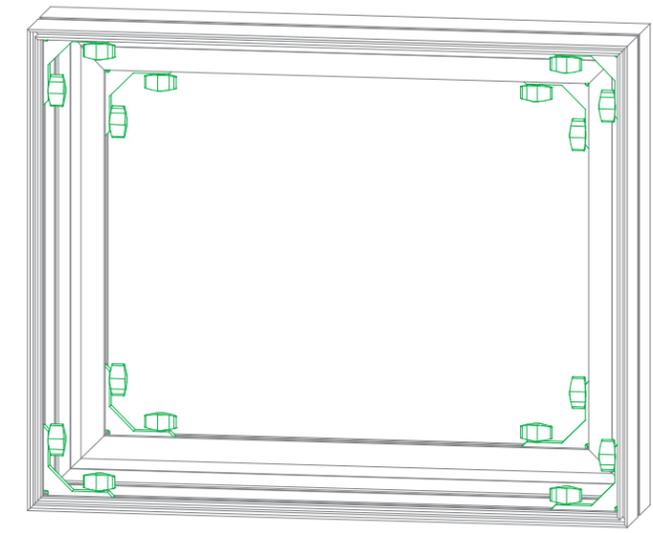

- 1) Loosen knobs, then slide vertical extrusions onto **corner connectors** of **lower** horizontal extrusion.
- 2) Slide **corner connectors** of **upper** horizontal extrusion into grooves of vertical extrusions.
- 3) Tighten all knobs to secure connection.

Disassembly

- 1) Loosen knobs on vertical extrusions.
- 2) Slide the vertical extrusions off of **corner connectors** on lower and upper horizontal extrusions.

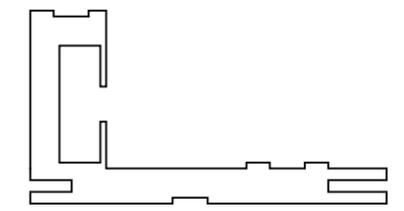

Adjust connectors if necessary to prevent gaps in connection.

COMPLETED ASSEMBLY

All knobs must be tightened securely to ensure a proper connection.

CEI110 Profile

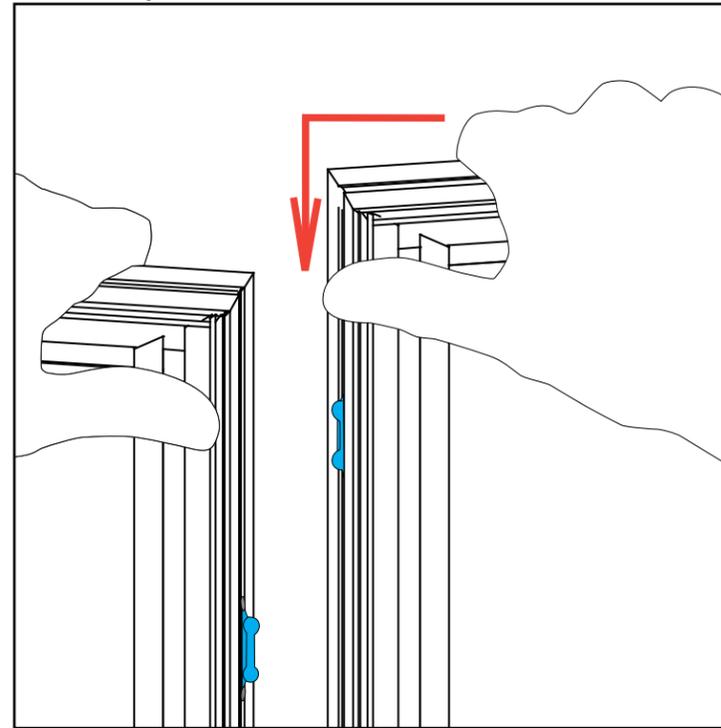

Side-by-Side Assembly

- 1) Frames: Place frames side-by-side with one higher than the other, then slide panel down to lock panels securely together.
- 2) Corner Connectors: Repeat Step 1 for installing corner connectors to frames.

Side-by-Side Disassembly

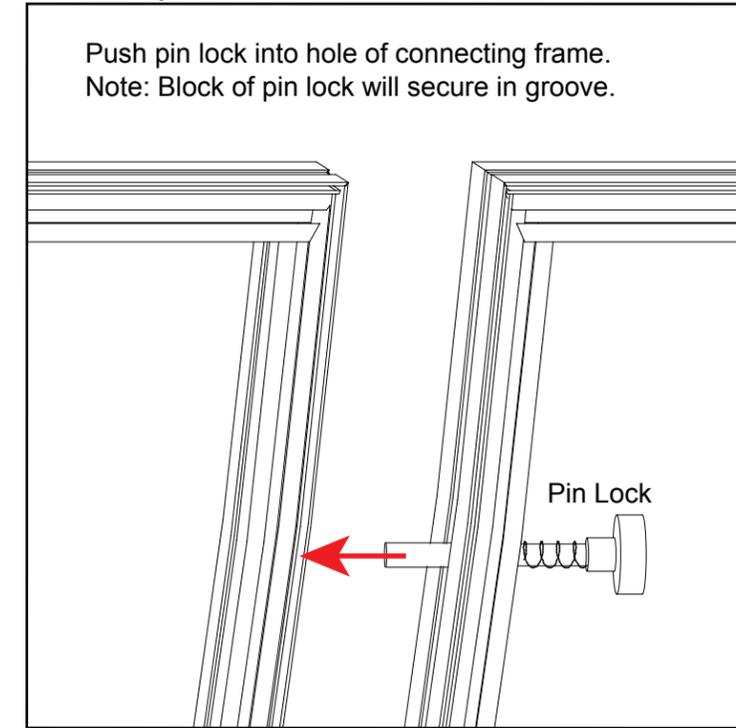

- 1) Pull pin lock outwards to disengage.
- 2) Pull frames upward and apart at the same time to detach.

Assembly

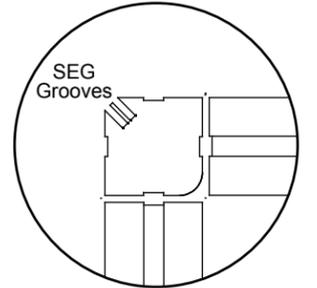

Assembly Cont'd

Push pin lock into hole of connecting frame.
Note: Block of pin lock will secure in groove.

Corner Connector

Top View
Note: Orientation of Corner Connector may change.

Stacking Assembly

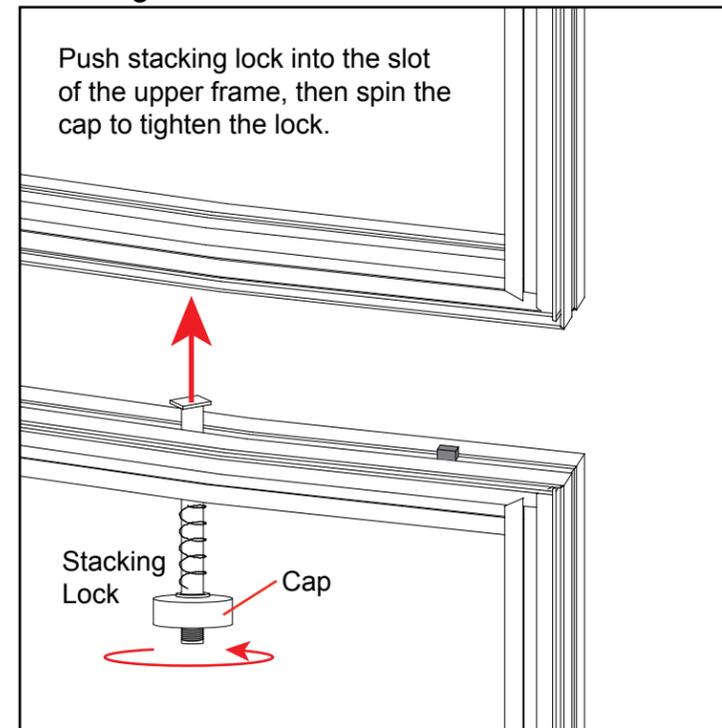

- 1) Place one horizontal frame on top of the other, lining up the center grooves.
- 2) Turn stacking lock clockwise to tighten into place. Repeat for each lock.

Stacking Disassembly

- 1) Turn the stacking lock counter-clockwise to loosen.
- 2) The whole spring on the stacking lock should be in view to release each frame. The disengaged spring should release the stacking lock. If not, keep turning the stacking lock until it disengages.

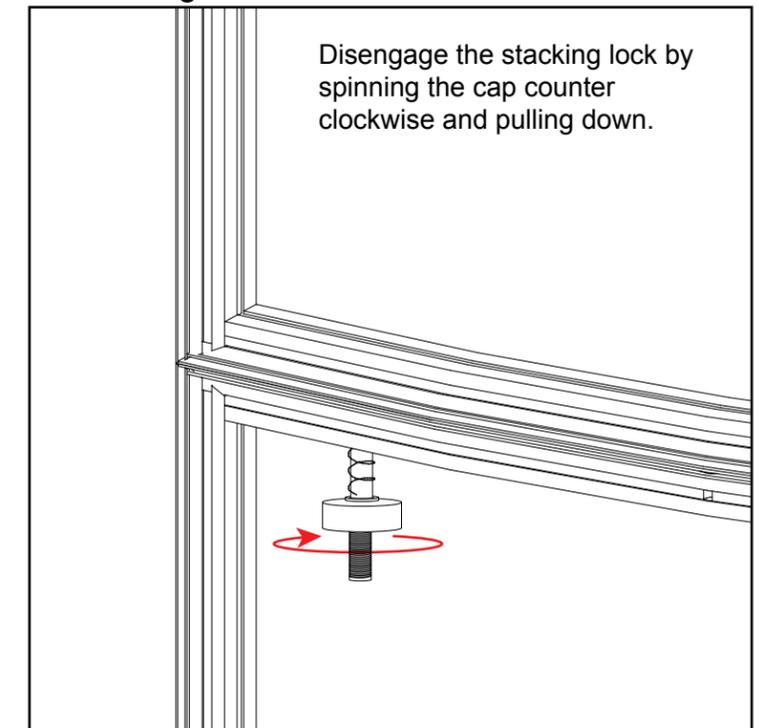

Stacking

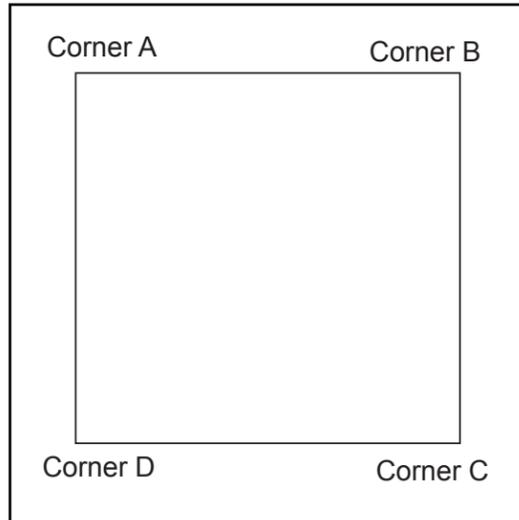

Push stacking lock into the slot of the upper frame, then spin the cap to tighten the lock.

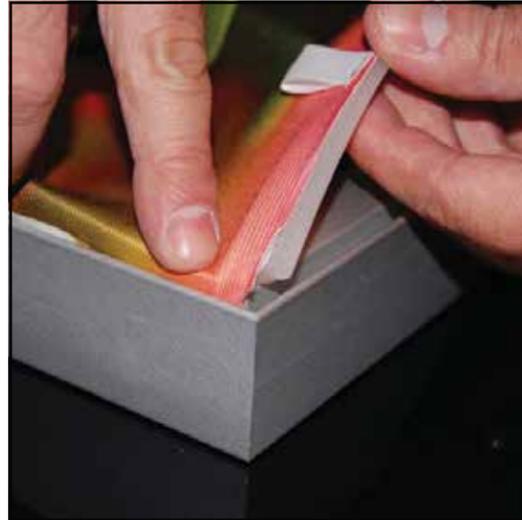

Unstacking

Disengage the stacking lock by spinning the cap counter clockwise and pulling down.

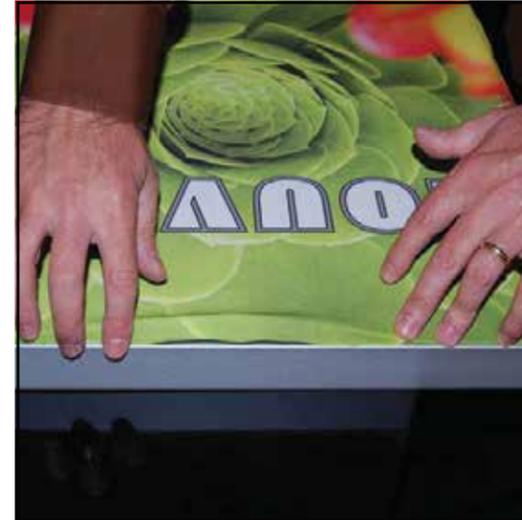

It is important to first insert graphic into each alternate corner then to the sides of the frame. If this is not done, graphic will not fit into the frame correctly.

Step 1
Insert corner A. Turn edge of graphic so silicon welt is perpendicular to face of graphic. Insert narrow side of welt with fabric to outside into the channel. Repeat for other side of this corner.

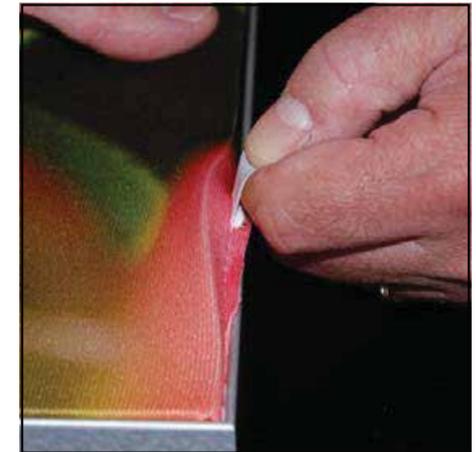

Step 2
Repeat Step 1 for opposite corner C, then insert corner B, followed by corner D, to complete the installation of the corners.

Step 3
Once all corners are inserted, press one silicon edge into channel from corners and work toward the center. Make sure welt is fully inserted into channel. Continue until all sides are done. Smooth out edges of graphic.

Graphic Removal

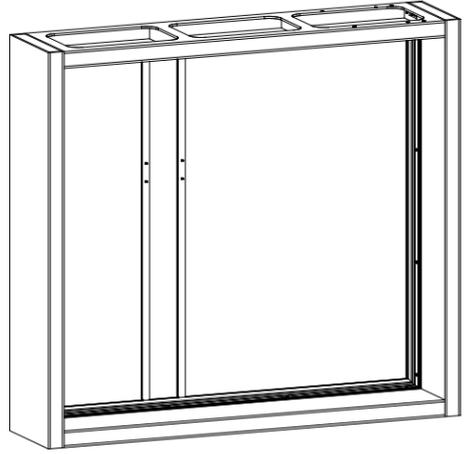

To remove the graphic from the frame, locate the fabric pull tab. Gently pull up on the tab to remove the fabric.

CRATE PACKING

Item	Qty.	Description
1	1	86"h CEI110 Vertical Extrusion
2	1	86"h CEI110 Vertical Extrusion
3	1	96"w CEI110 Horizontal Extrusion
4	1	96"w CEI110 Horizontal Extrusion
A	1	94"h x 24"d Side Panel
B	1	94"h x 24"d Side Panel
C	1	96"w x 24"d Lower Panel
D	1	96"w x 24"d Upper Panel
5	2	82.353"h Z45 Vertical Extrusion

- Steps:**
- 1) Assemble CEI110 extrusions [1-2-3-4] together. See [CEI110 Corner Connection](#) detail.
 - 2) Attach extrusions [1/2/3/4] to Panels [A,B,C,D], using [Bolt to T-Nut Connection](#).
 - 3) Secure panels [C,D] to panels [A,B] using roto cam locks. See [Roto Cam Lock Connection](#) detail.
 - 4) Attach verticals [5] between horizontals [3,4].

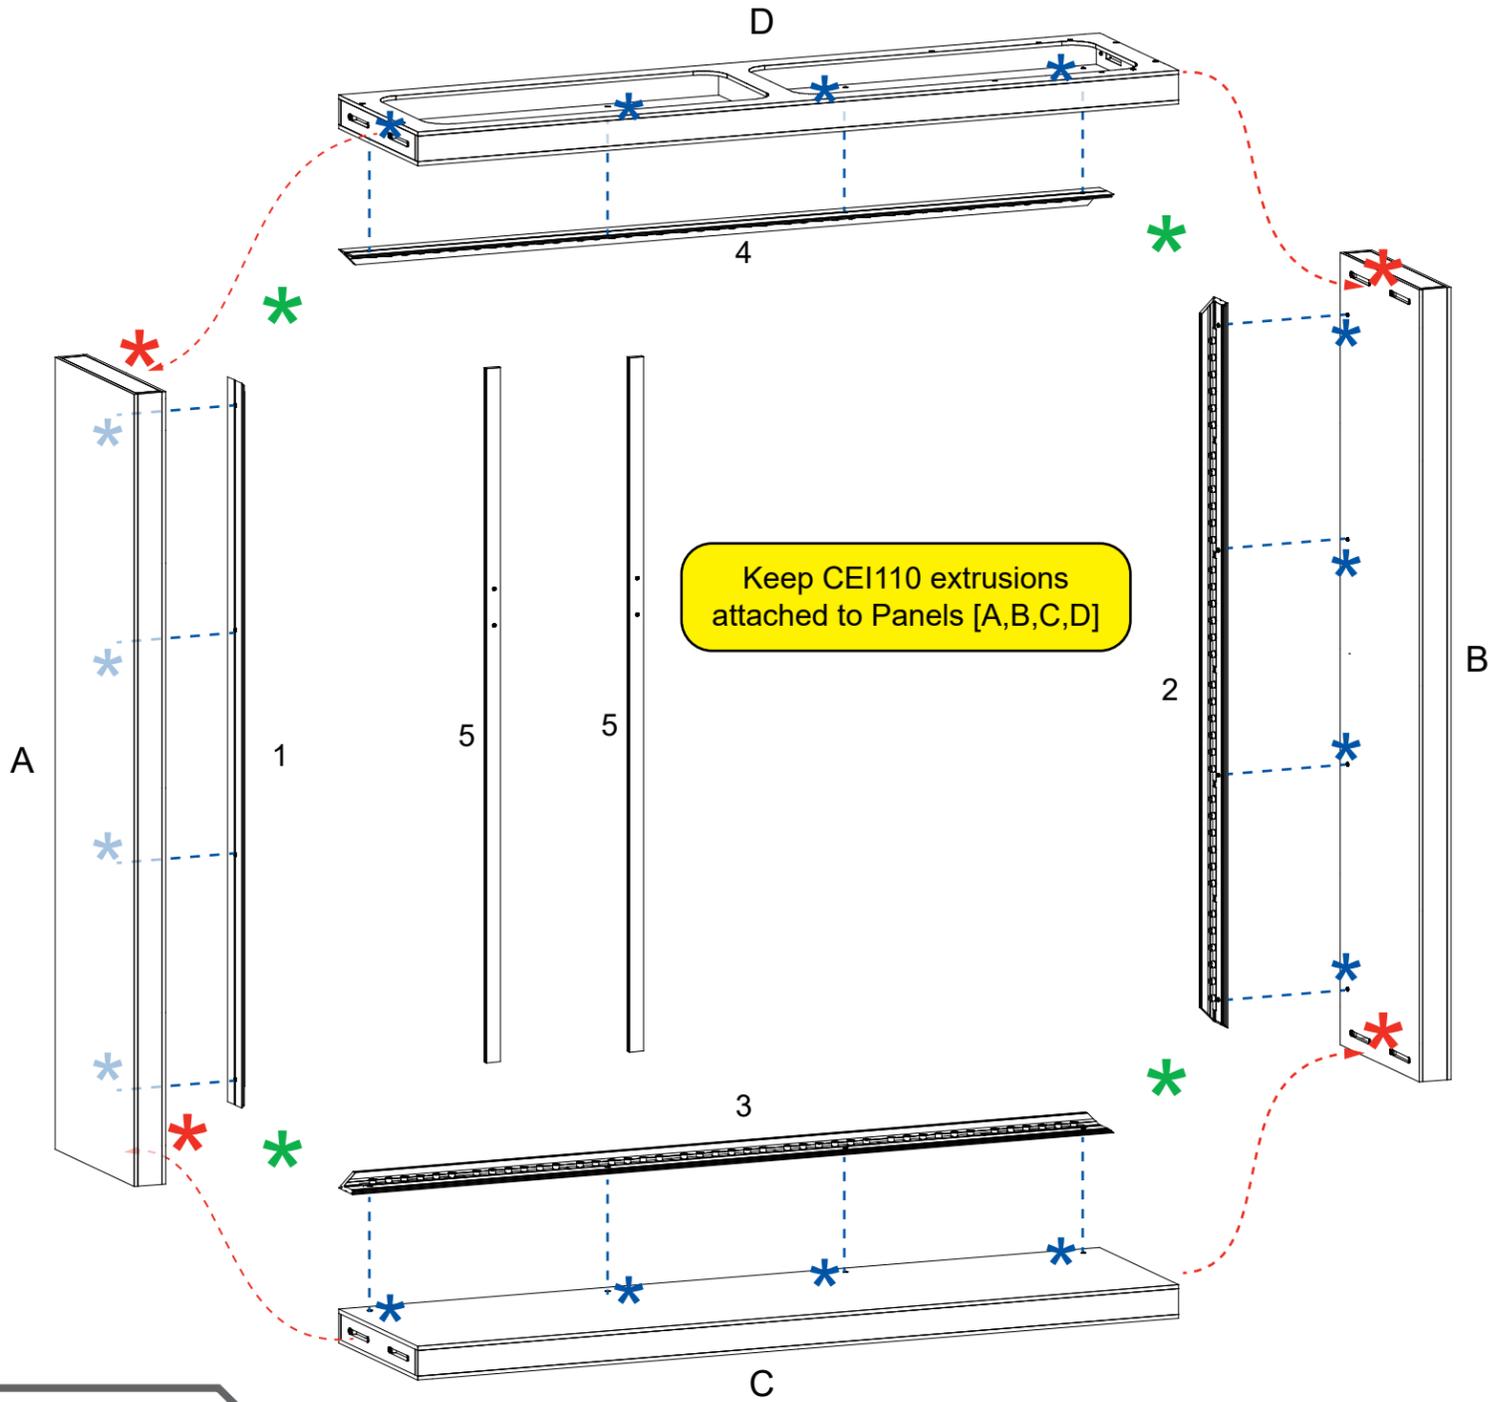

When assembled

*** CEI-110 Corner Connection**

1. Slide extrusion onto corner connectors.
2. Tighten all knobs to secure connection.

*** Bolt to T-nut Connection**

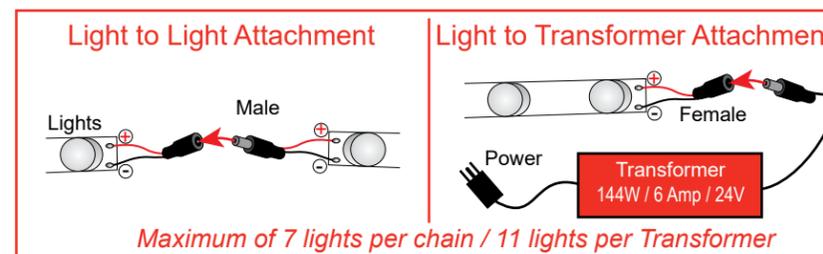

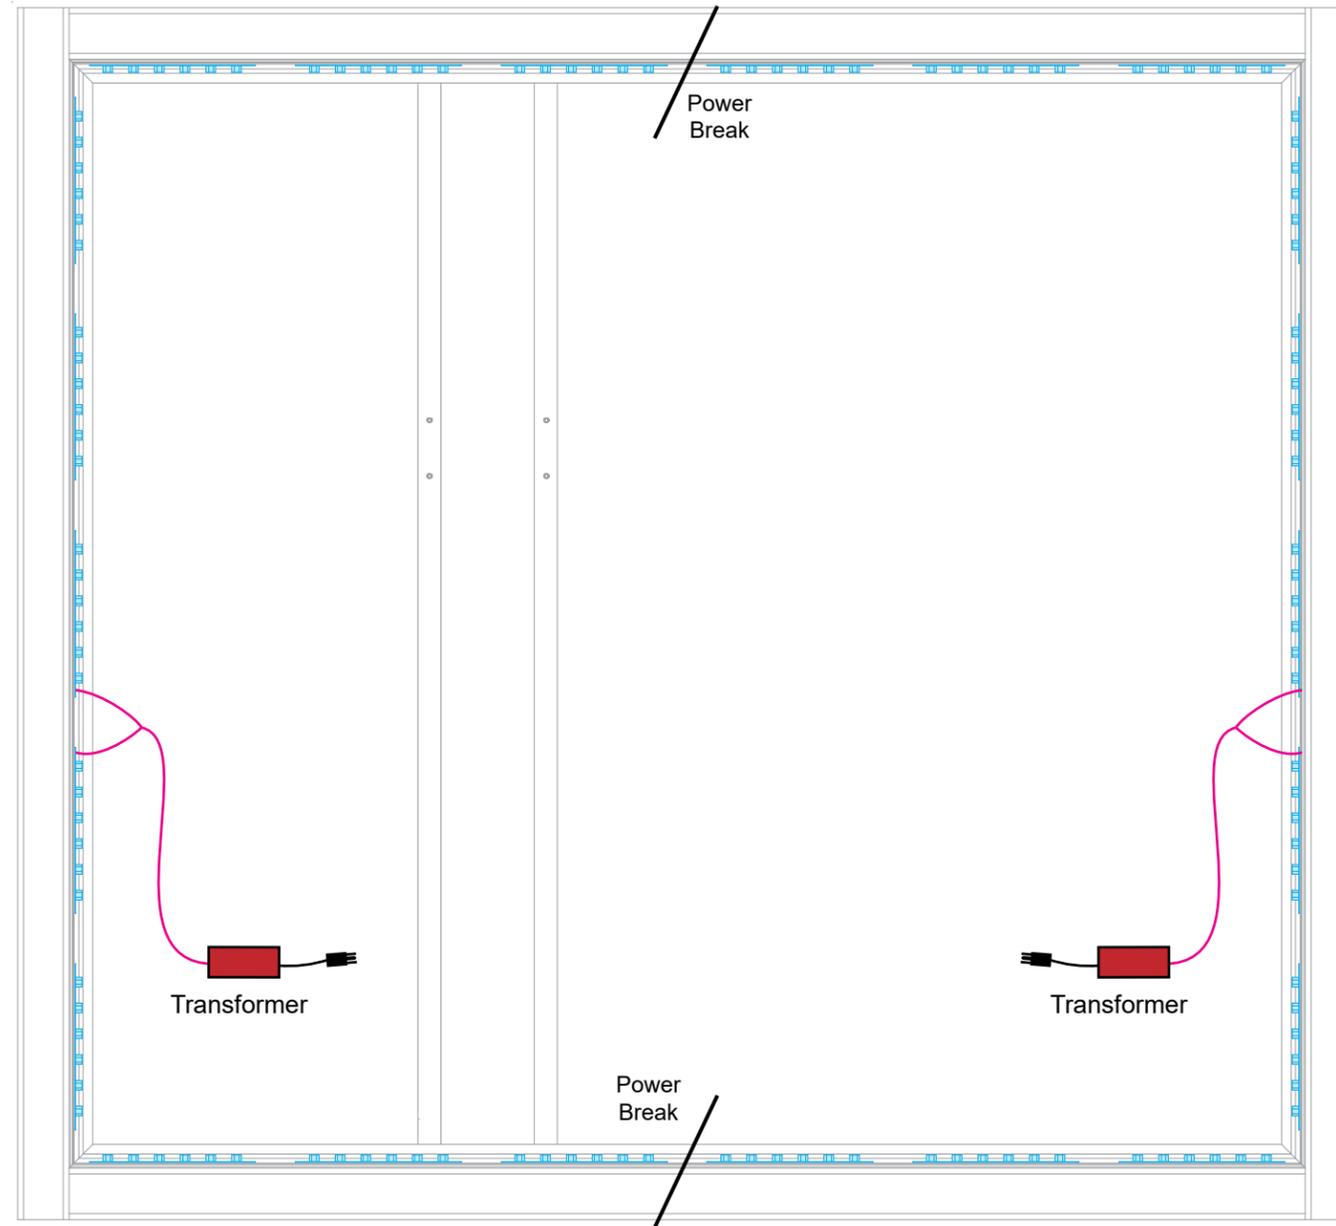

*** Roto Cam Lock Connection**

Step 1

Step 2

Place hex tool in hole on side of panel. Rotate to activate lock & secure panels together.

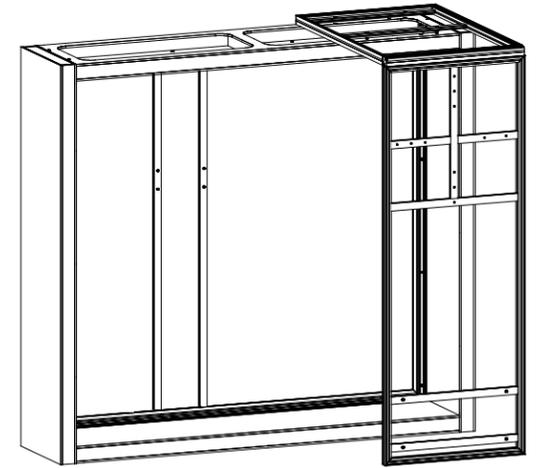

- Steps:
1) Connect power cords to Supernova lights as shown.

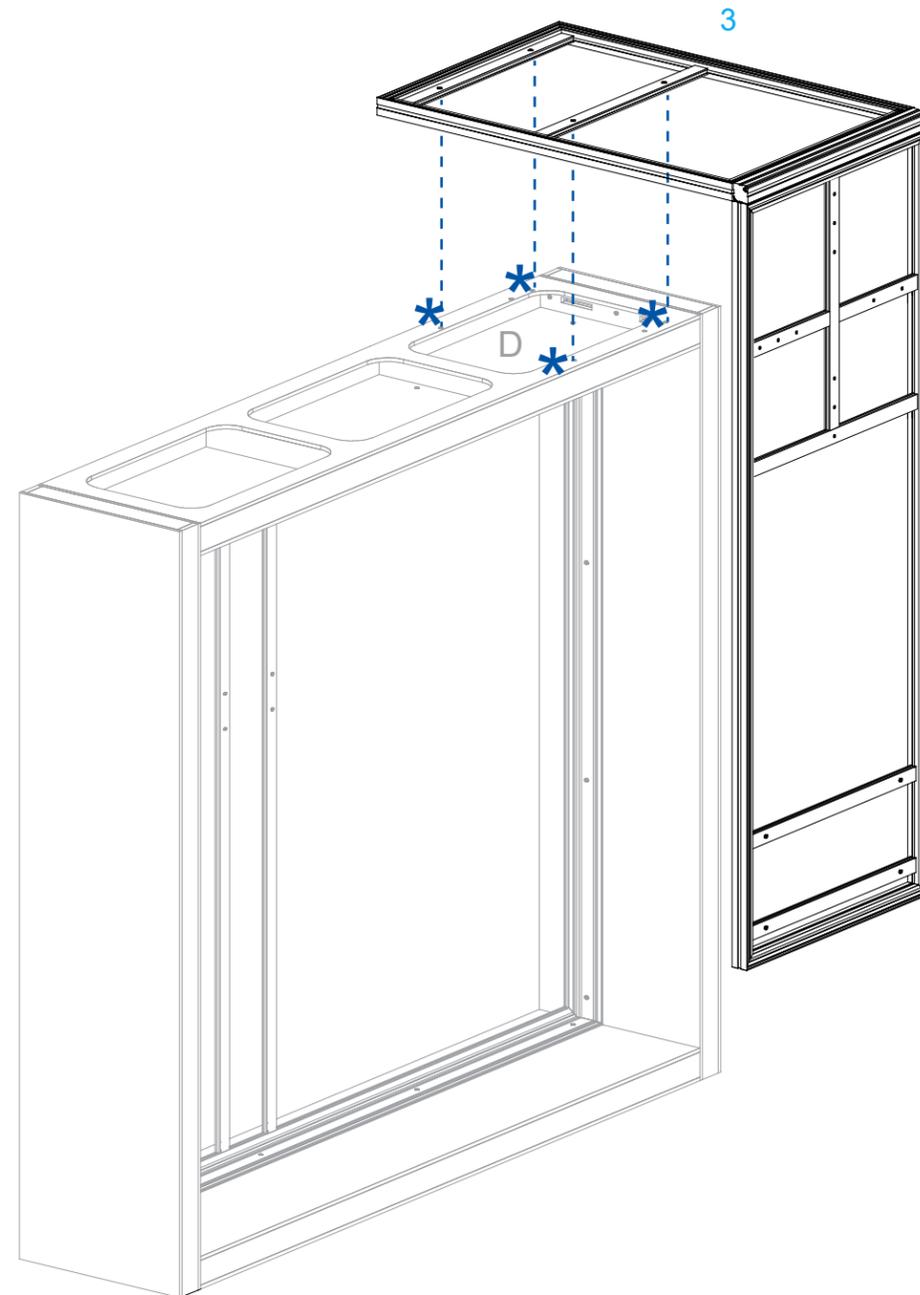

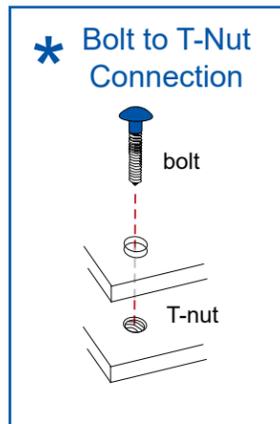

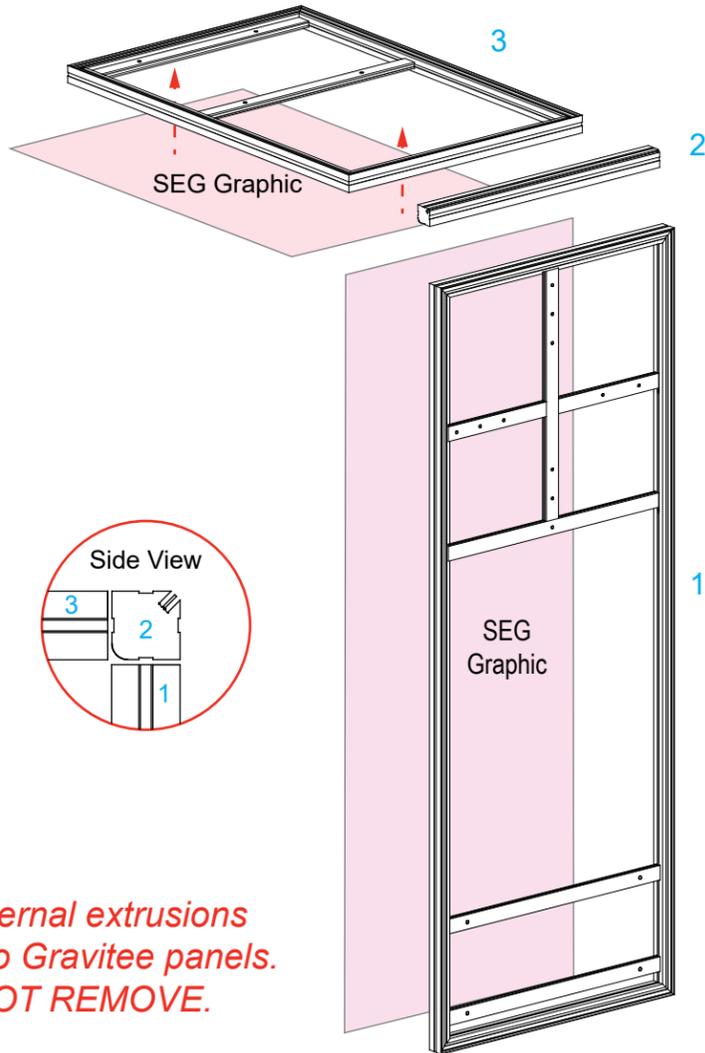

Item	Qty.	Description
1	1	35" w x 94" h Gravitee Panel
2	1	35" w Gravitee Corner Connector
3	1	35" w x 52" d Gravitee Ceiling Panel

Steps:

- 1) Assemble Gravitee panels [1-2-3] together as shown.
Refer to the Gravitee Assembly general information page.
- 2) Apply SEG Graphics to back side of panel [1] & underside of panel [3].
Refer to the SEG Installation general information page.
- 3) Connect ceiling panel [3] to backwall panel [D] using Bolt to T-nut Connection.

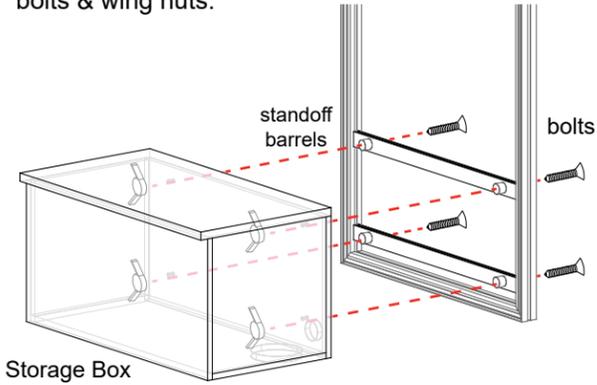

When assembled

Keep internal extrusions attached to Gravitee panels. DO NOT REMOVE.

*** Storage Box Attachment**

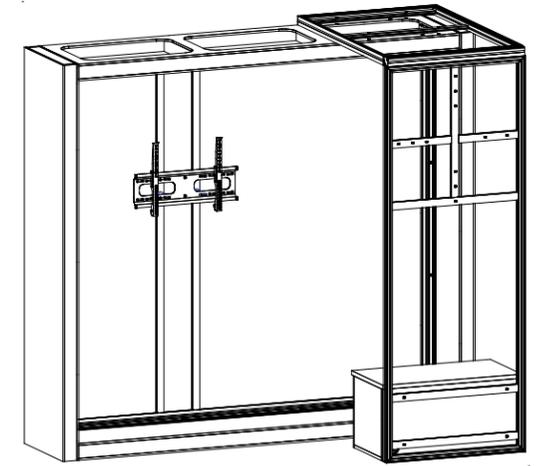

Attach Storage Box to horizontal extrusions in Gravitee Panel, using standoff barrels, bolts & wing nuts.

Note: Storage box attaches through SEG graphic.

Steps:

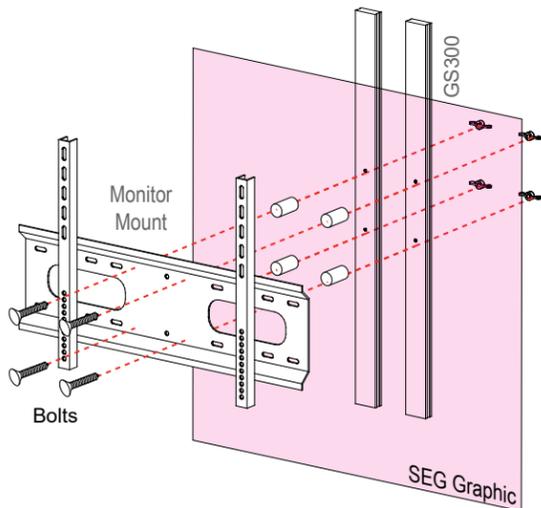

- 1) Attach Storage Box to Gravitee panel [1]. See [Storage Box Attachment](#) detail.
- 2) Apply SEG Graphics to front side of panel [1], top of panel [3] & front of lightbox. Refer to the [SEG Installation general information page](#).
- 3) Install Monitor Mount to lightbox verticals [5]. See [Monitor Mount Attachment](#) detail.
- 4) Apply SEG Blocker to back of lightbox.

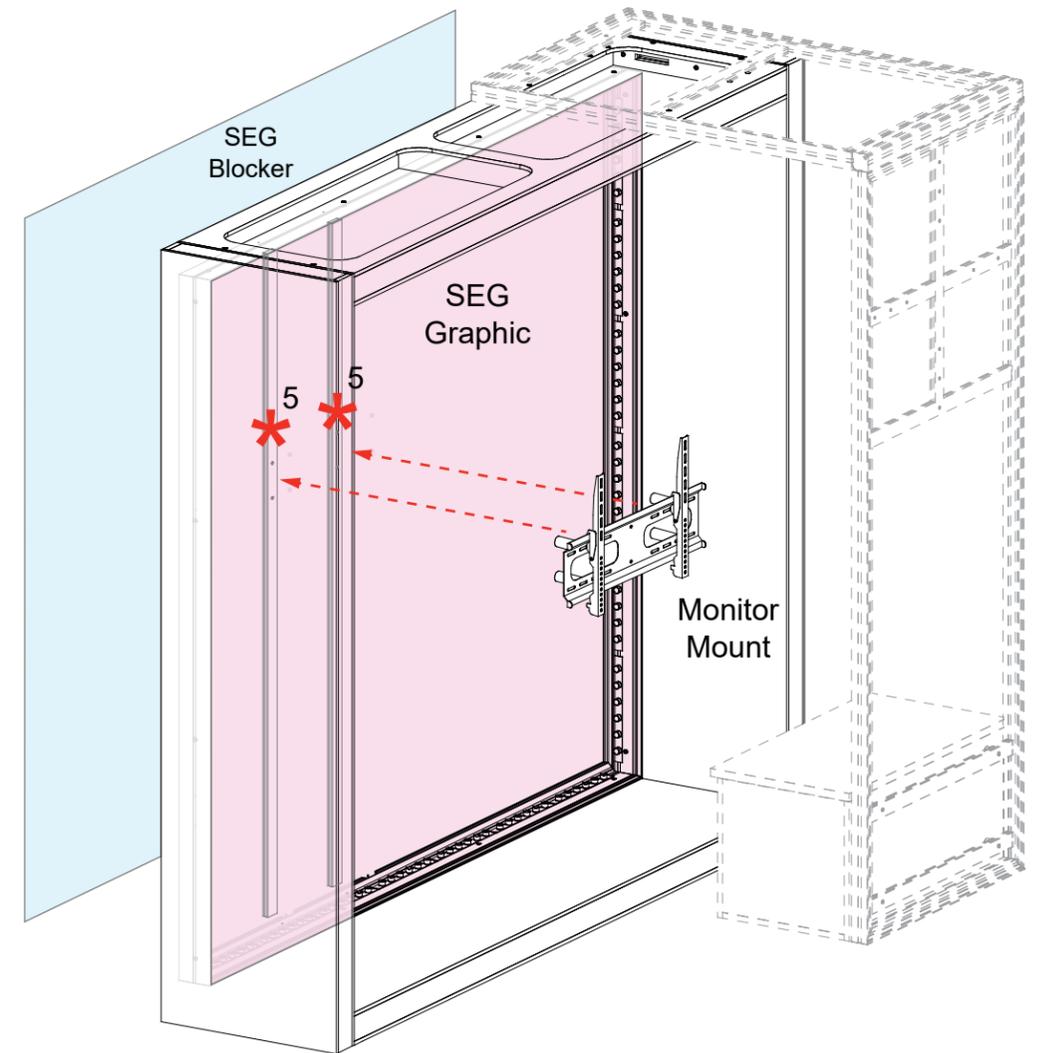

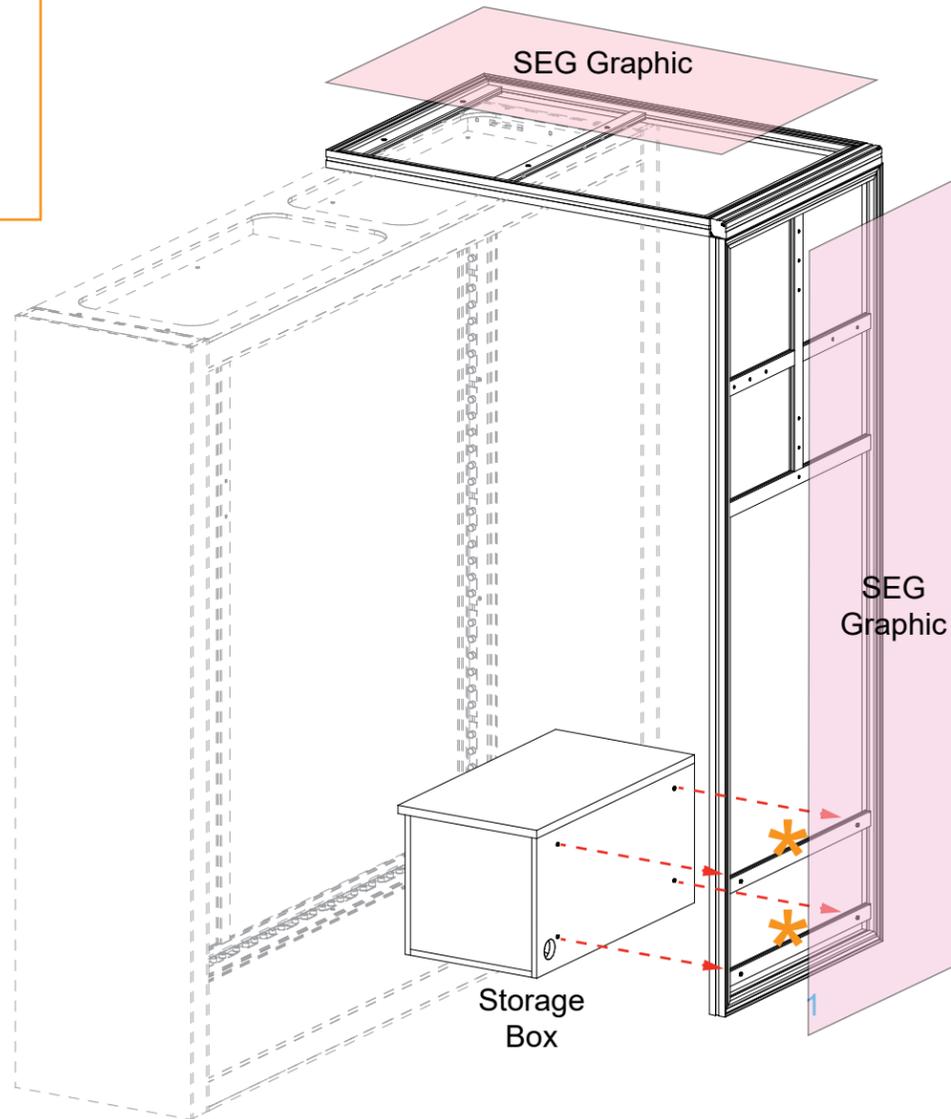

When assembled

*** Monitor Mount Attachment**

Attach Monitor Mount to vertical extrusions using standoff barrels, bolts & wing nuts.

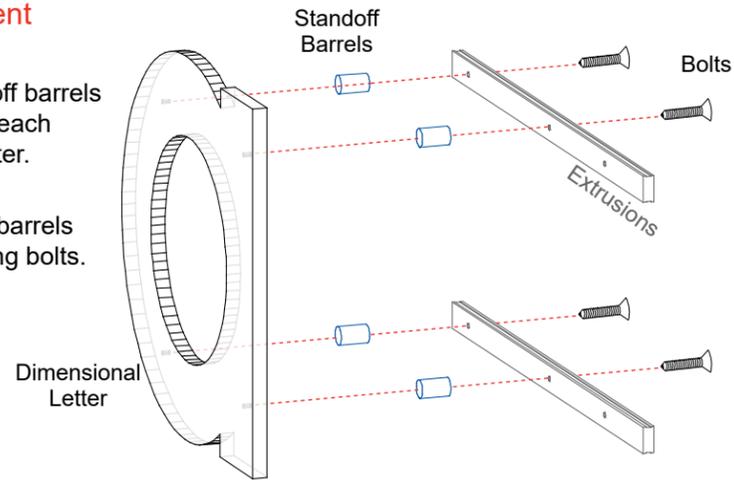

Note: Monitor mounts install through SEG graphic.

Logo Attachment

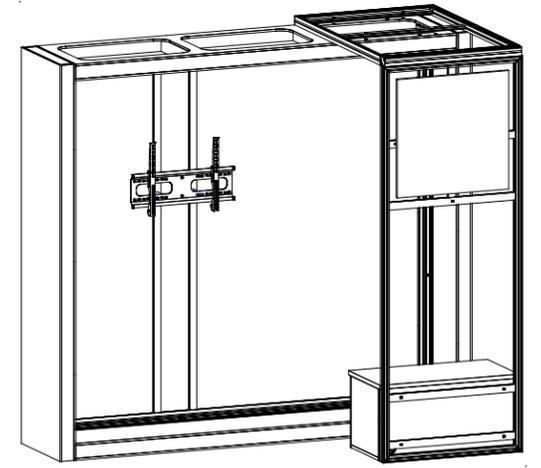

1. Connect standoff barrels to back side of each dimensional letter.
2. Install standoff barrels to backwall using bolts.

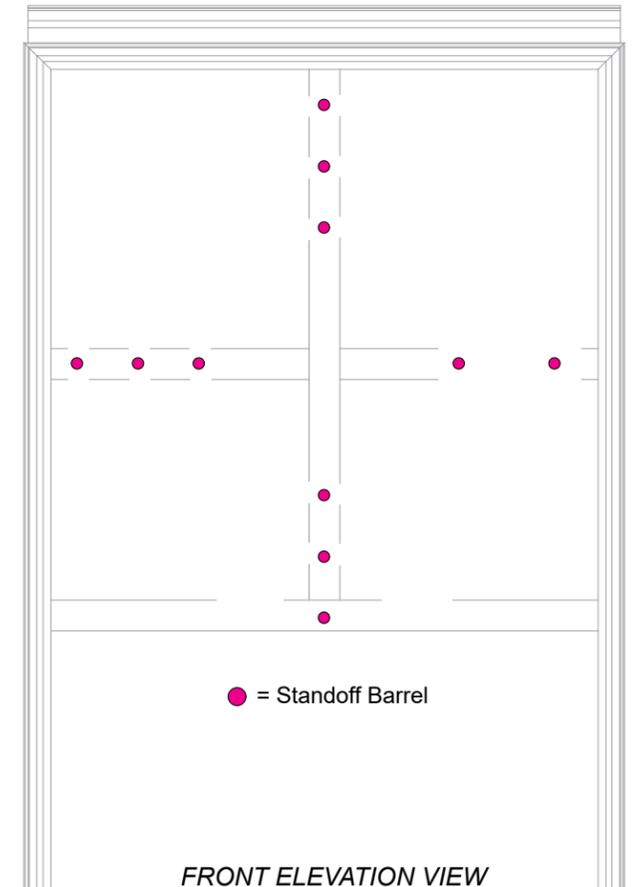

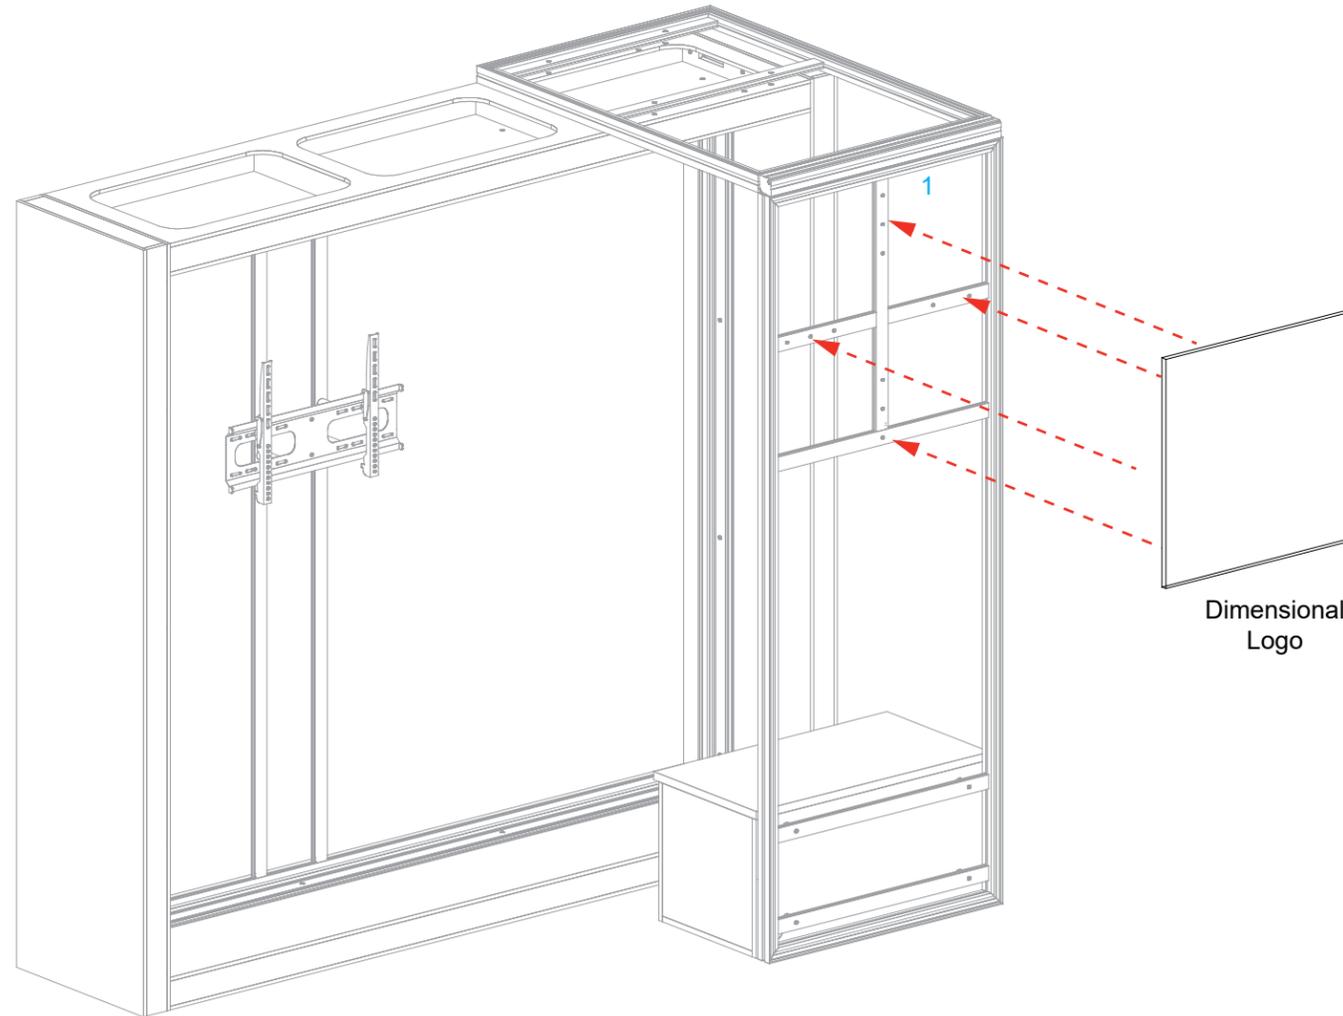

Standoff barrels attach through the SEG graphic.

Steps:

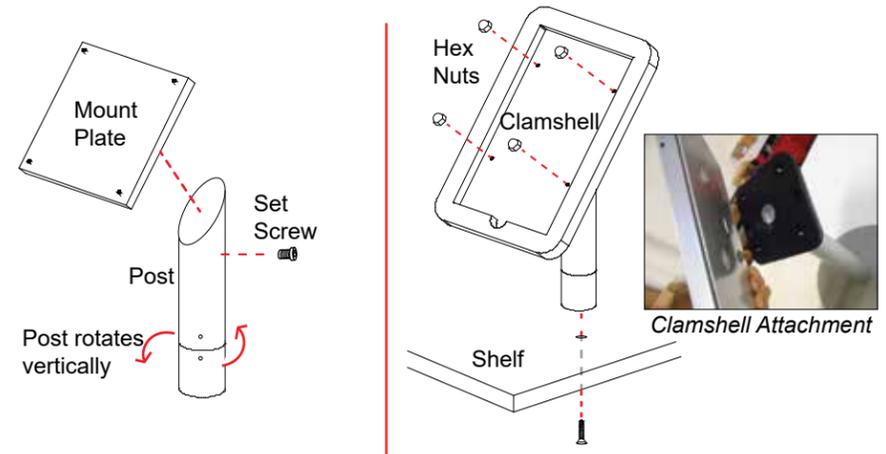

- 1) Attach Dimensional Logo to extrusions in Gravitee panel [1], using standoff barrels. See **Logo Attachment** Detail.

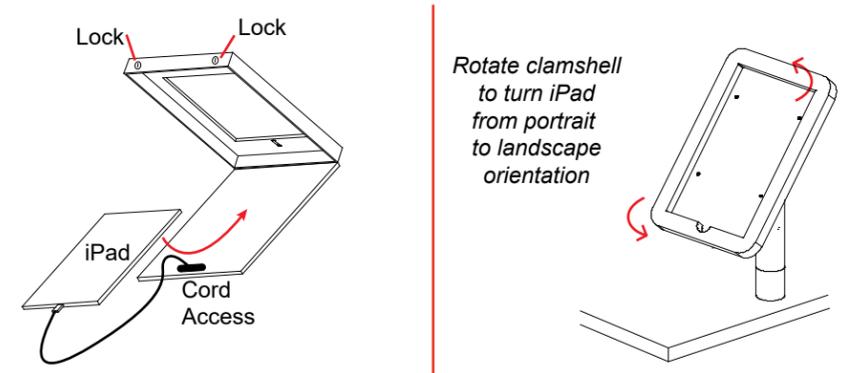

When assembled

*** MOD-1329 iPad Mount Attachment**

1. Attach Mount Plate to Post, using Set Screw.
Note: Mount Plate must rotate left & right before installing clamshell.
2. Attach Post to Shelf, using bolt from underside; connect Clamshell to Mount Plate using hex nuts.

3. Insert iPad in Clamshell & feed cord through hole.

Optional Cover for Home Button

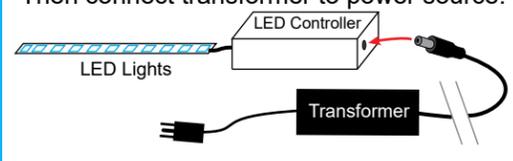

1. Remove foam lining from inside bottom of Clamshell.
2. Attach Home Button Shield with double-sided tape to inside of Clamshell, keeping top of shield flush with Clamshell opening.

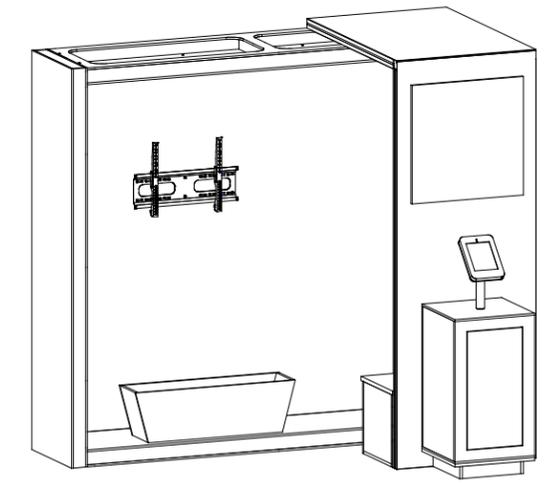

NOTE: This is a permanent fix and cannot be easily removed.

*** LED Power Cord Attachment**

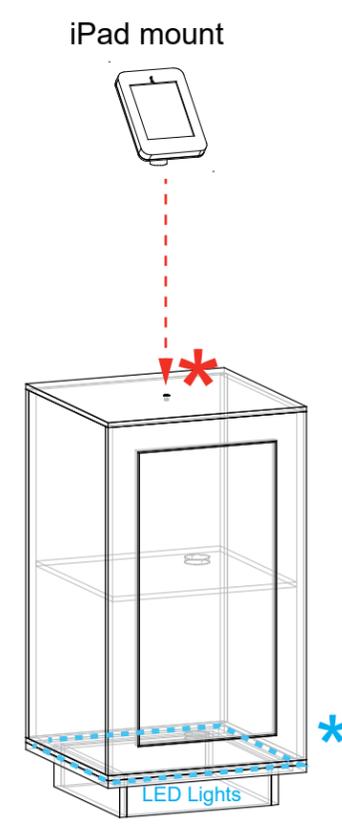

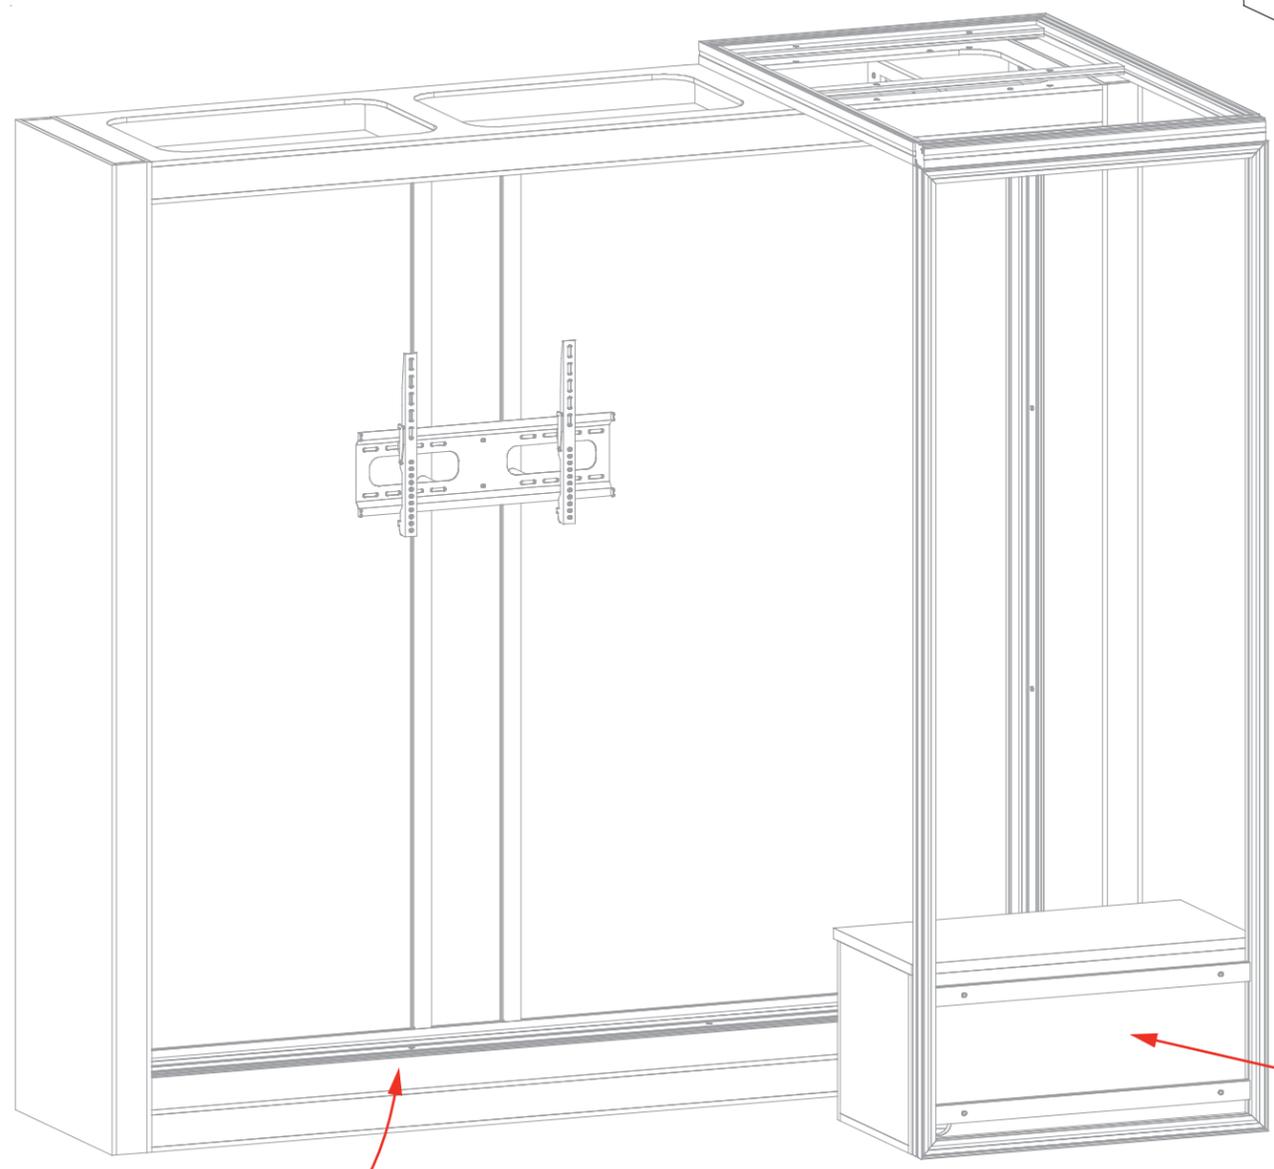

Connect transformer to LED Controller. Then connect transformer to power source.

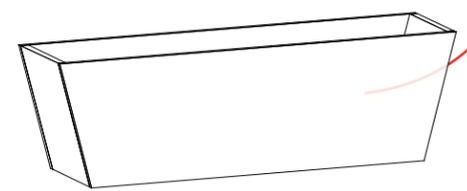

- Steps:
- 1) Place Planter Box on backwall, as shown.
 - 2) Connect power cord to LED tape lights on underside of Counter.
 - 3) Attach iPad mount to counter top as shown.
 - 4) Place Counter in front of backwall.

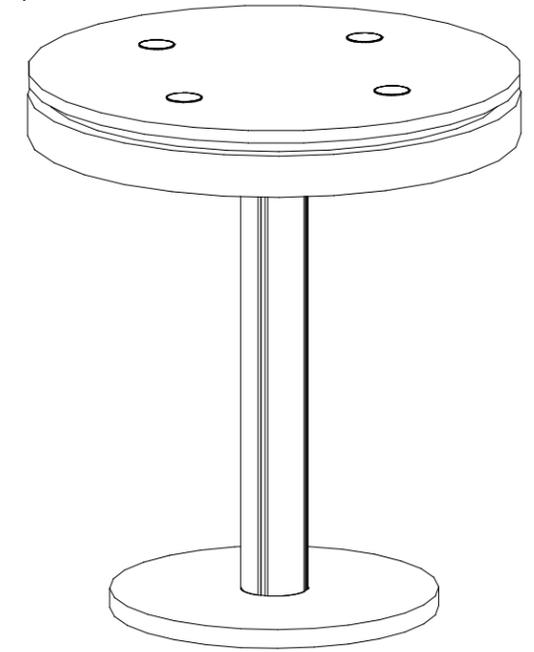

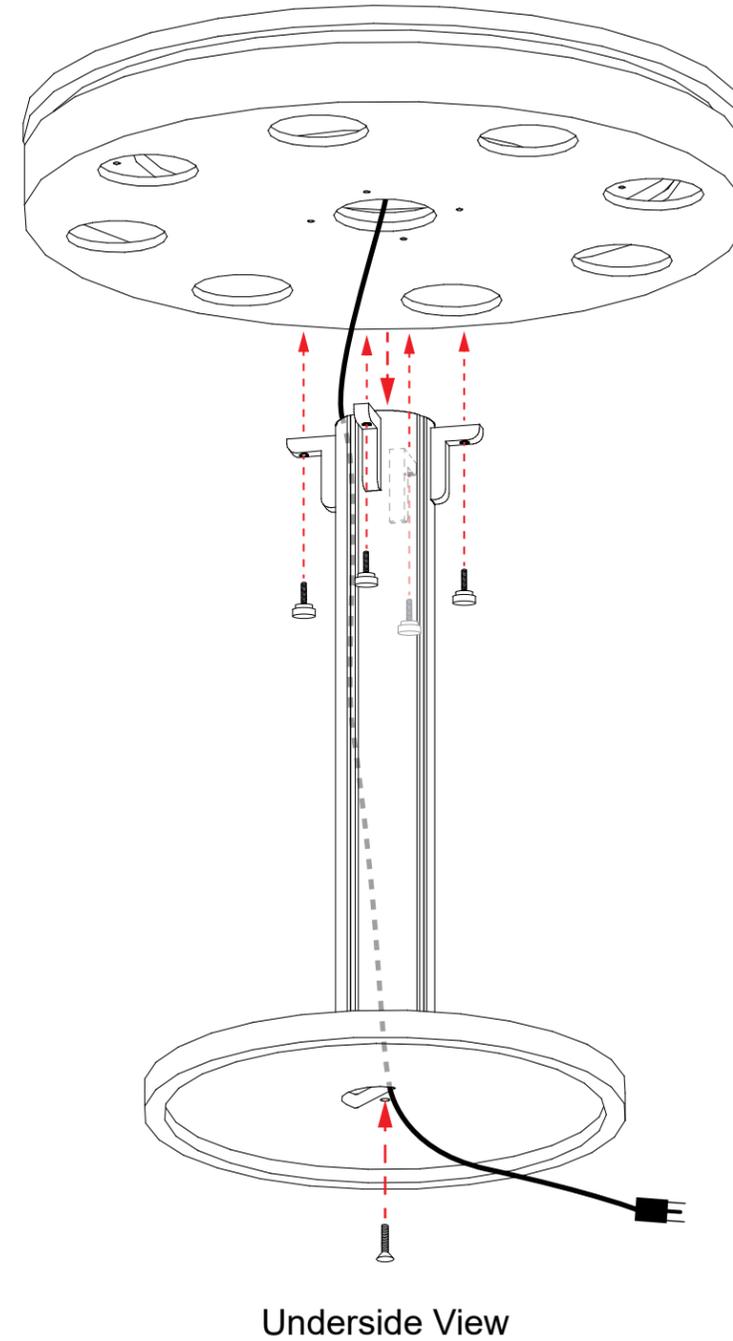

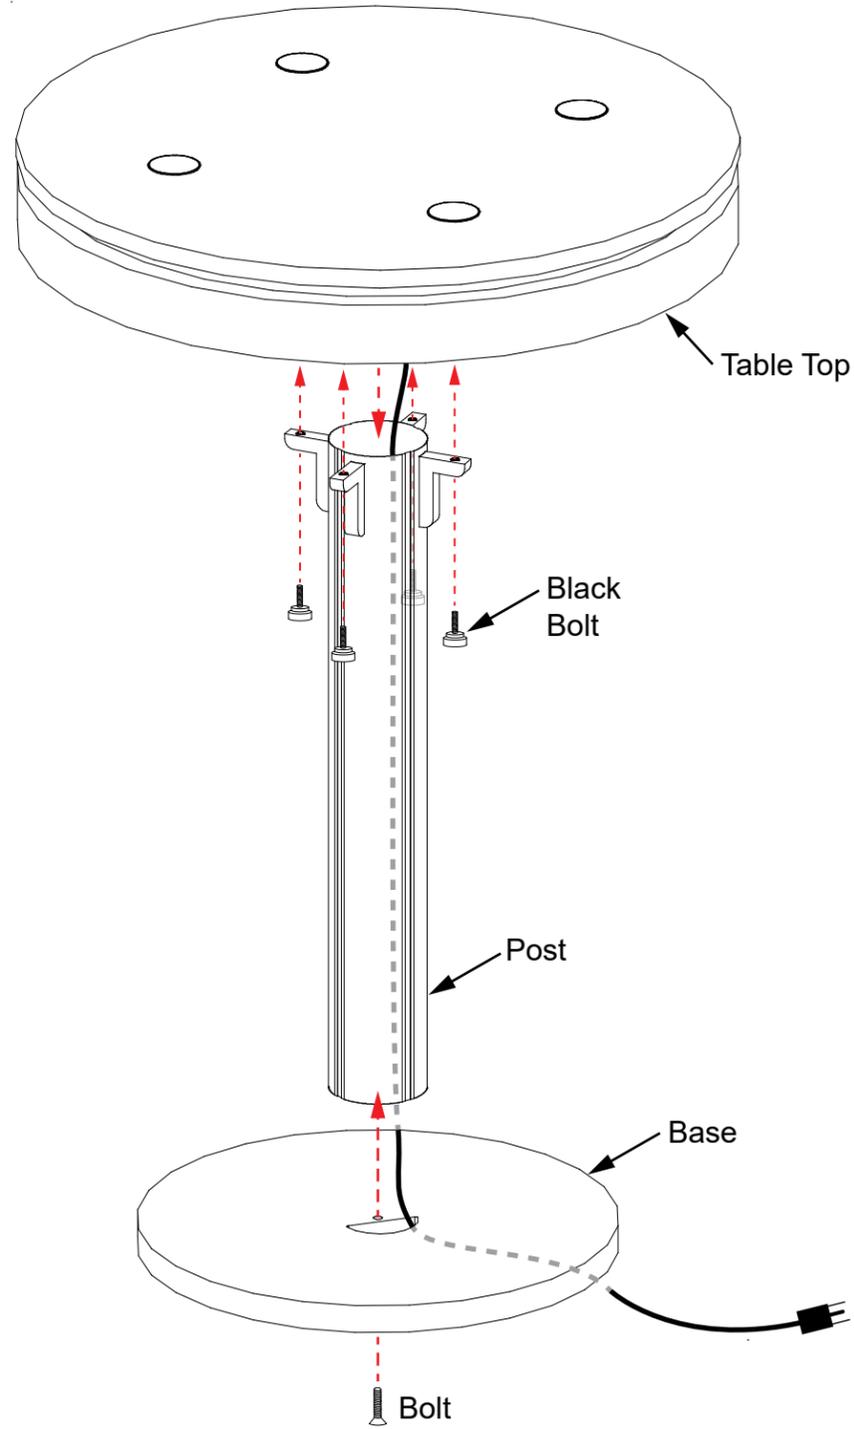

Completed Assembly

Counter

Planter Box

Steps:

- 1) Connect base to post, using bolt.
- 2) Route cord from table top through post and base.
- 3) Connect table top to post, with fixed brackets, using black bolts.
