

Order #XXXXX - ECO-1099 - 10' x 10' Backlit Sustainable Exhibit with MOD-1572

= 1 sq foot

General Setup Instructions

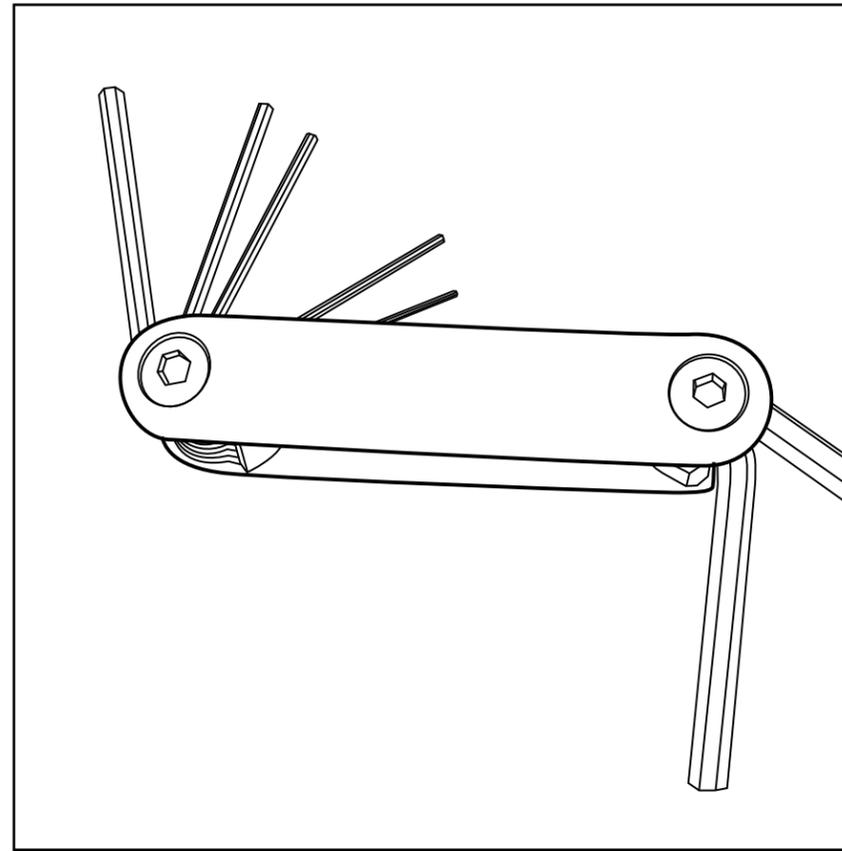

- The setup instructions are created specifically for your configuration.
- Setup instructions are laid out sequentially in levels, including exploded views and a logical series of steps for assembly. We encourage you to study the instructions before attempting to assemble your exhibit.

Cleaning and Packing

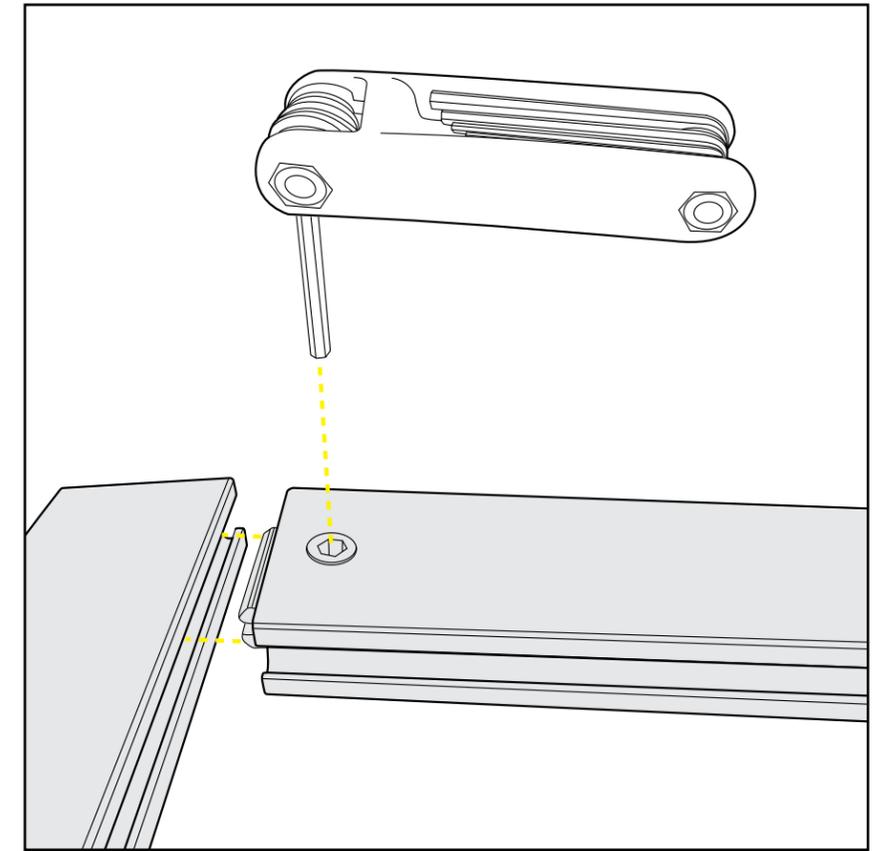

- Use non-abrasive cleaners when cleaning extrusions or ECO Glass inserts.
- Use mild cleaners and soft materials such as cotton to clean all laminates.
- Keep exhibit components away from extreme heat and long exposure to sun light. This will prevent warping and fading.
- Retain all packing material for ease of re-packing. This protects the exhibit components and keeps each part organized.

Disassembling

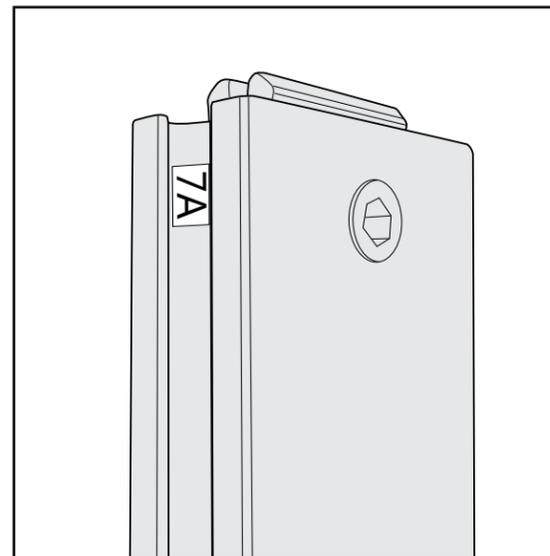

- When disassembling exhibit, tighten all setscrews to prevent loss of hardware in the shipping process.

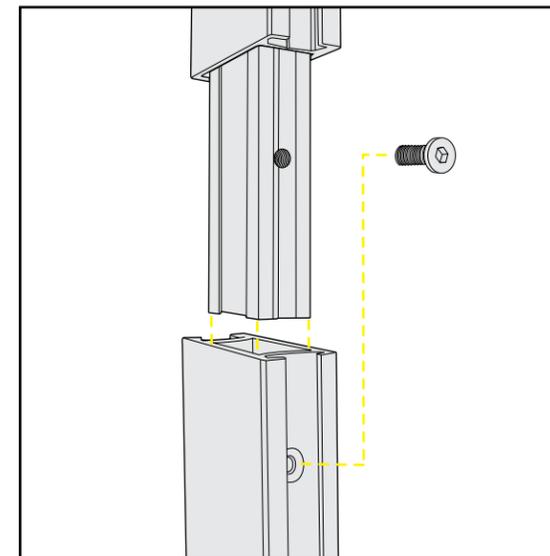

Hex Tool for Assembling Exhibit

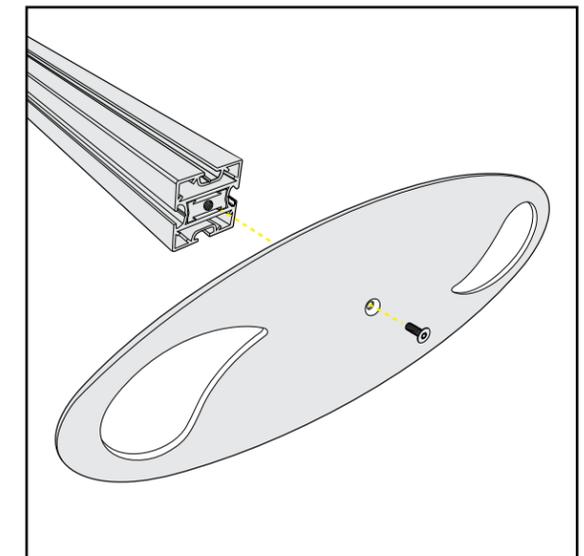

Extrusion Lock Connectors

Numbering Instructions for Setups/Packing

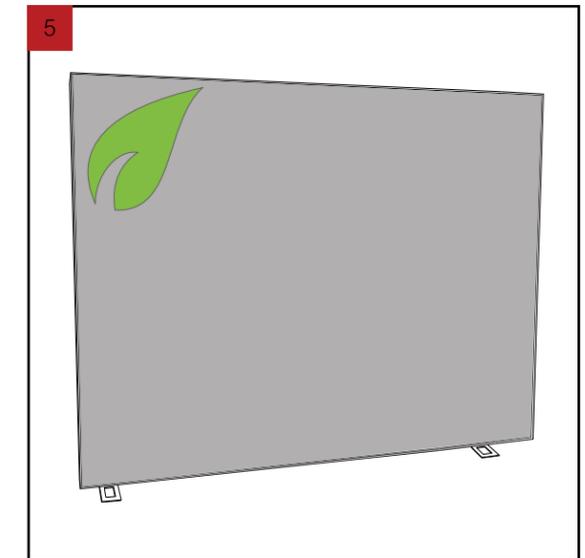

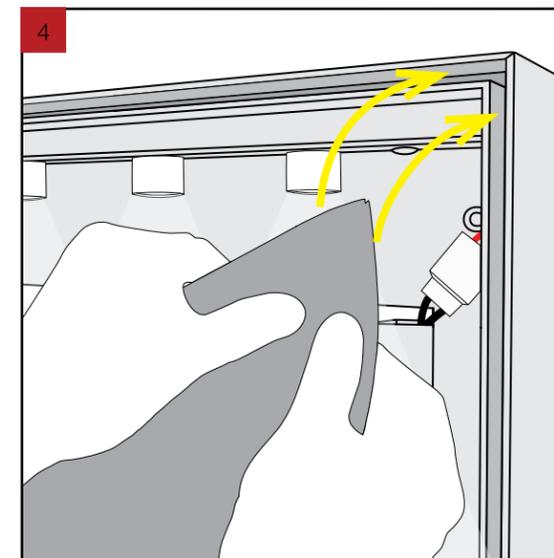

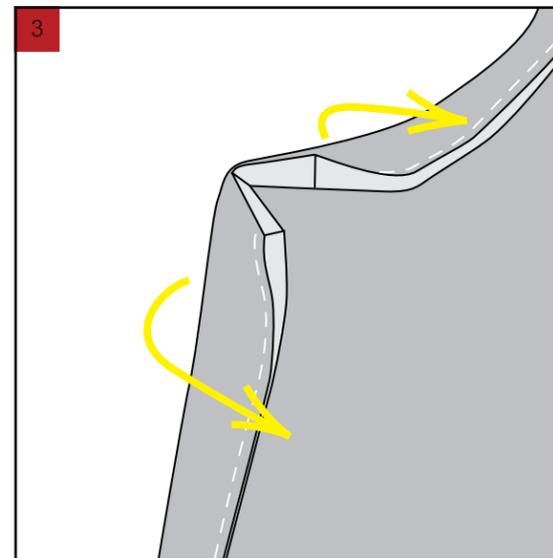

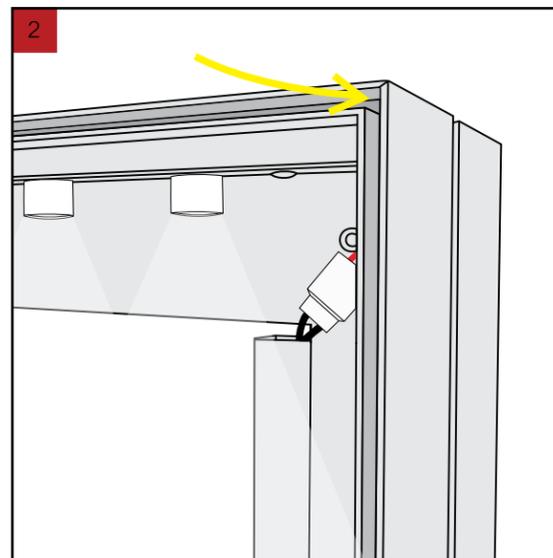

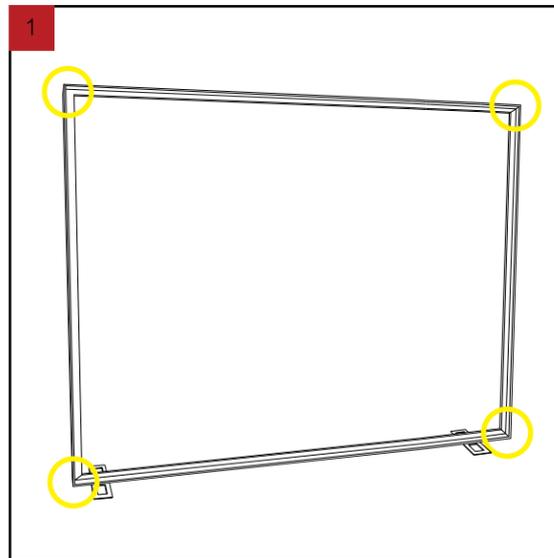

Inline Connection between Extrusions

Baseplate Connection for Vertical Extrusions

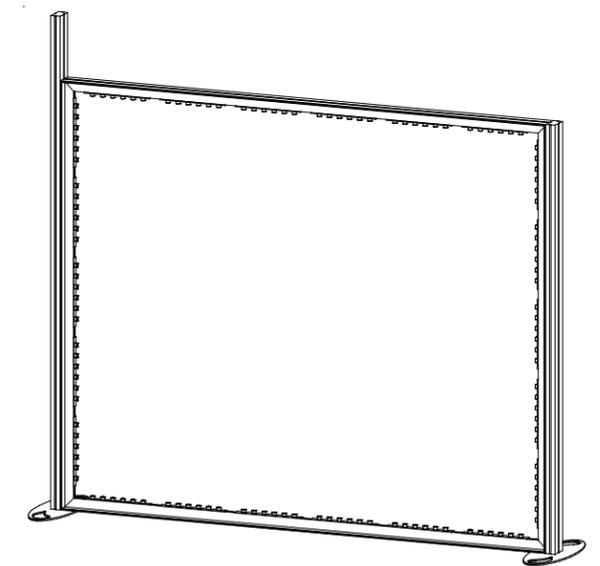

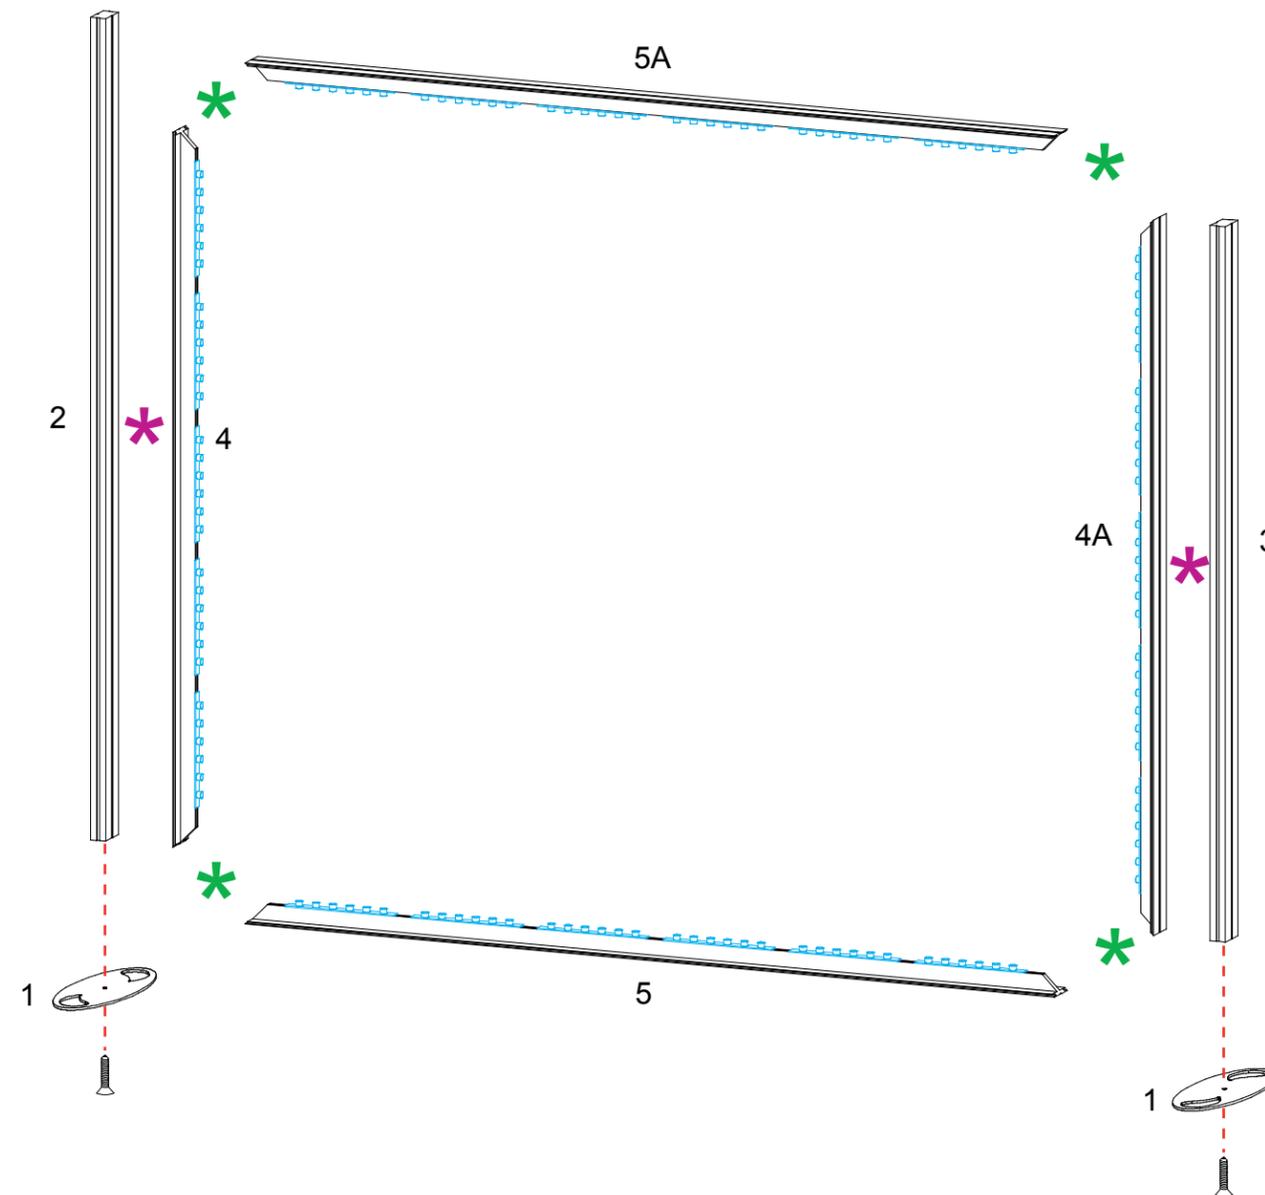

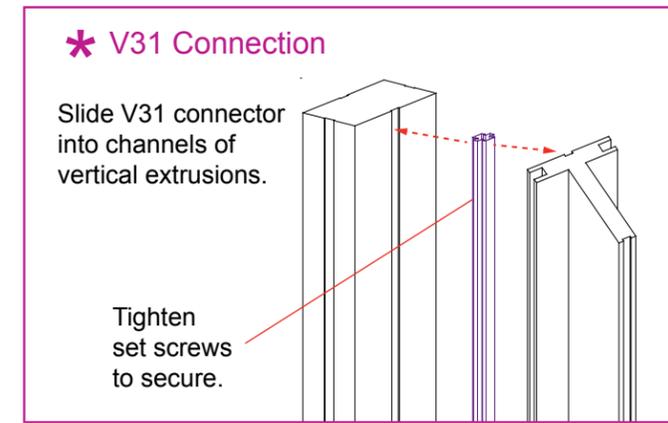

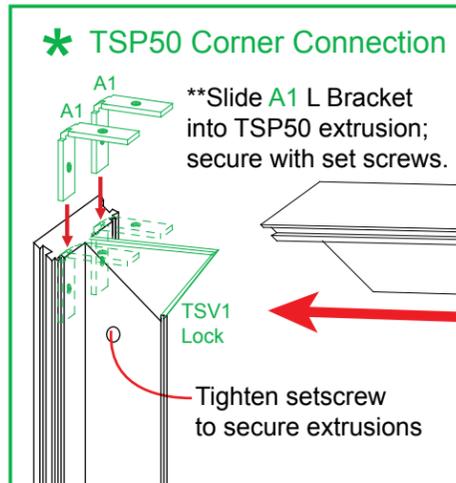

SEG Graphic Install

- 1 Graphic is installed corners first. This allows a proportional fit around the perimeter of the extrusion.
- 2 Locate channels along the edge of the extrusions.
- 3 Fold over graphic (hiding threads) and tuck silicon edge and fabric into corners.
- 4 After corners are complete, slide in the rest of the graphic into channel. (From edges to center)
- 5 Graphic is installed. Stand back and be amazed!

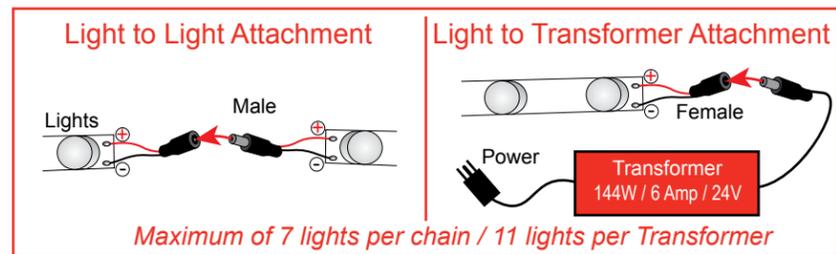

Item	Qty.	Description
1	2	8" x 22" oval Base Plate
2	1	92"h S91 Vertical Extrusion
3	1	80"h S91 Vertical Extrusion
4/4A	1/1	80"h TSP50 Vertical Extrusion
5/5A	1/1	96"w TSP50 Horizontal Extrusion
--	2	79.75"h V31 Connector

- Steps:
- 1) Connect Base Plates [1] to verticals [2,3], using bolts.
 - 2) Assemble horizontals [5,5A] between verticals [4,4A]. See **TSP50 Corner Connection** detail.
 - 3) Attach frame assembly [4/4A/5/5A] between verticals [2,3] using V31 connectors. See **V31 Connection** detail.

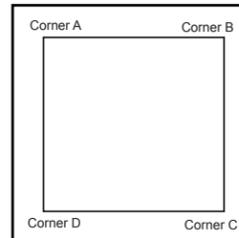

Steps:

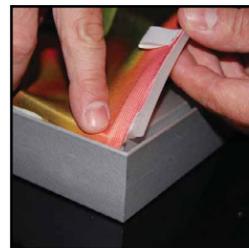

- 1) Connect power cords to Supernova lights as shown.
- 2) Apply SEG Graphic to front of lightbox assembly.
- 3) Attach SEG Blocker to back of lightbox assembly.

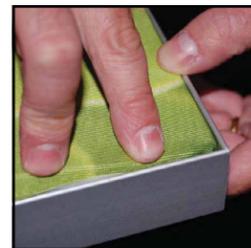

SEG Graphic Installation

It is important to first insert graphic into each alternate corner, then to the sides of the frame. If this is not done, graphic will not fit into the frame correctly.

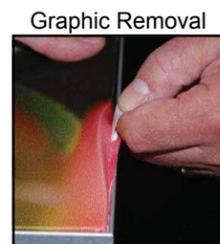

Step 1
Insert corner A. Turn edge of graphic so silicon welt is perpendicular to face of graphic. Insert narrow side of welt with fabric to outside into the channel. Repeat for other side of this corner.

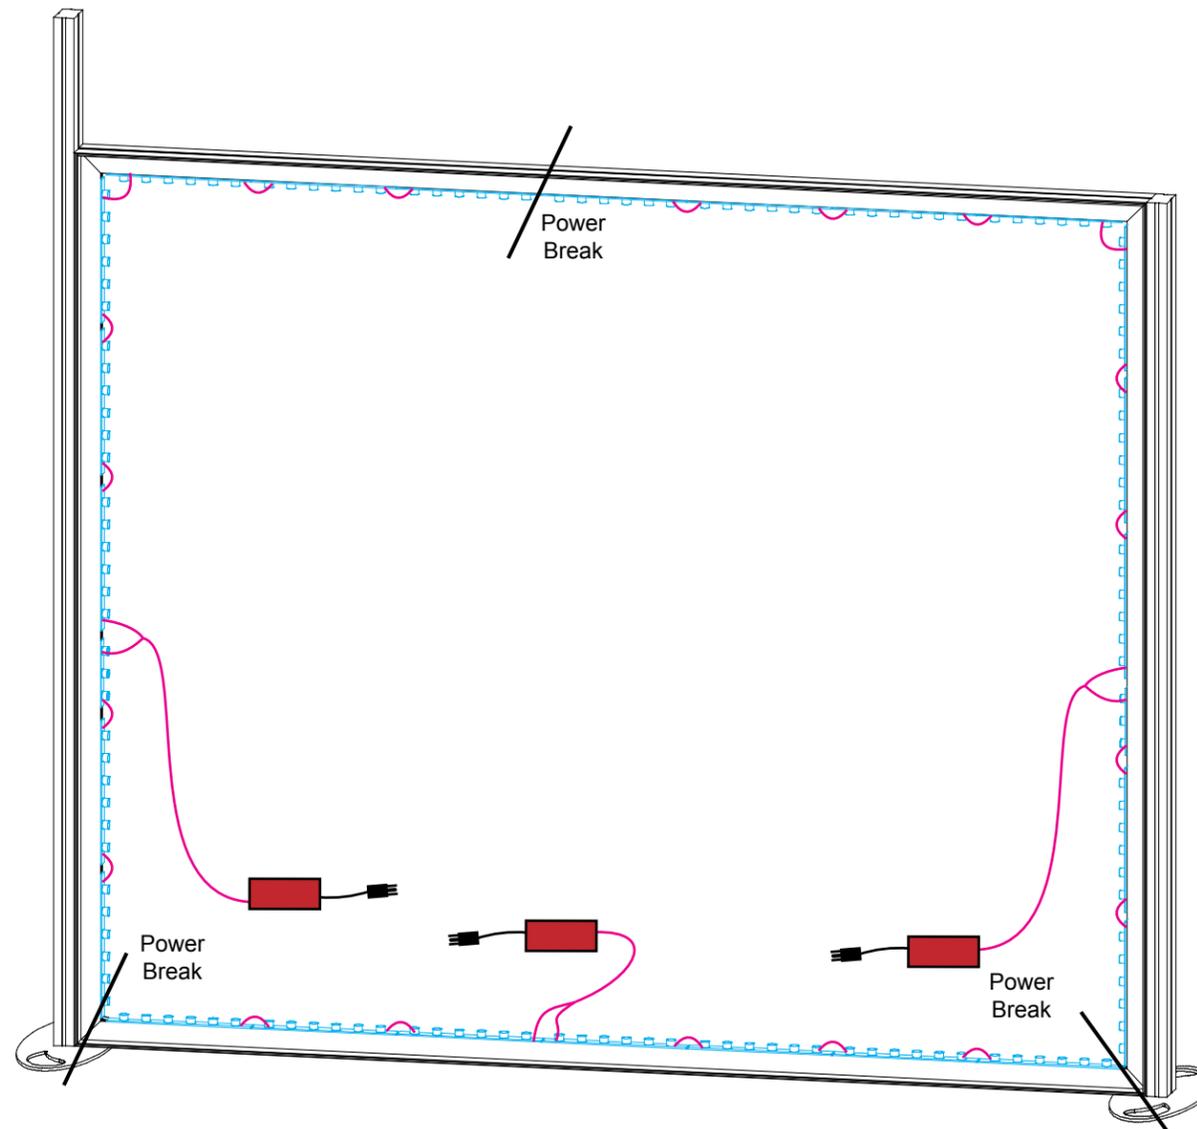

Step 2
Repeat Step 1 for opposite corner C, then insert corner B, followed by corner D, to complete the installation of the corners.

Step 3
Once all corners are inserted, press one silicon edge into channel from corners and work toward the center. Make sure welt is fully inserted into channel. Continue until all sides are done. Smooth out edges of graphic.

Graphic Removal
To remove the graphic from the frame, locate the fabric pull tab. Gently pull up on the tab to remove the fabric.

AERO

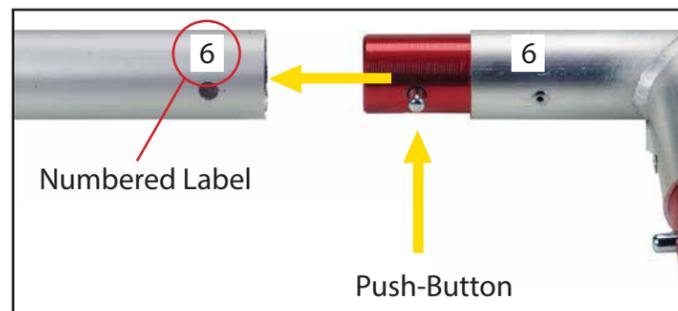

Using Your Setup Instructions

The Aero Setup Instructions are created specifically for your configuration. The instructions include an exploded view of the frame which is sequentially labeled. We encourage you to review the instructions before attempting to assemble your exhibit.

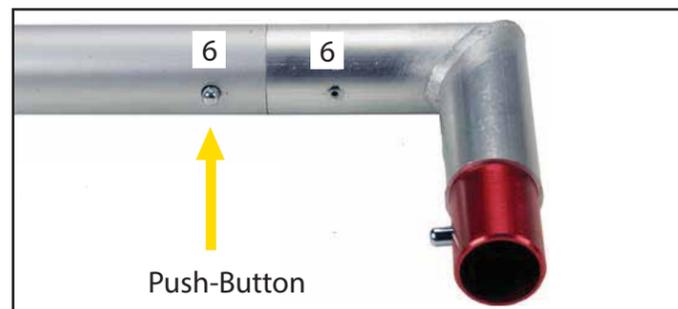

Connections are kept very simple; no tools required. Everything assembles with push-button connectors.

Cleaning and Packing Your Display

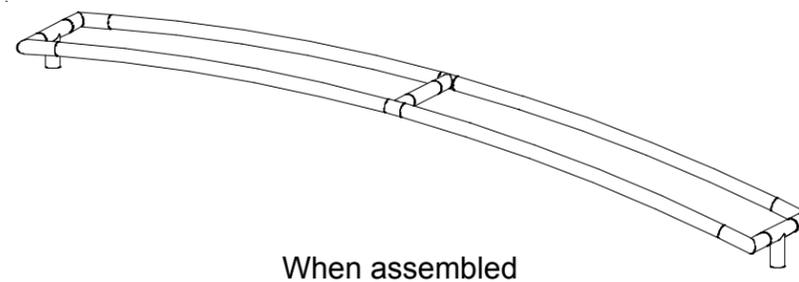

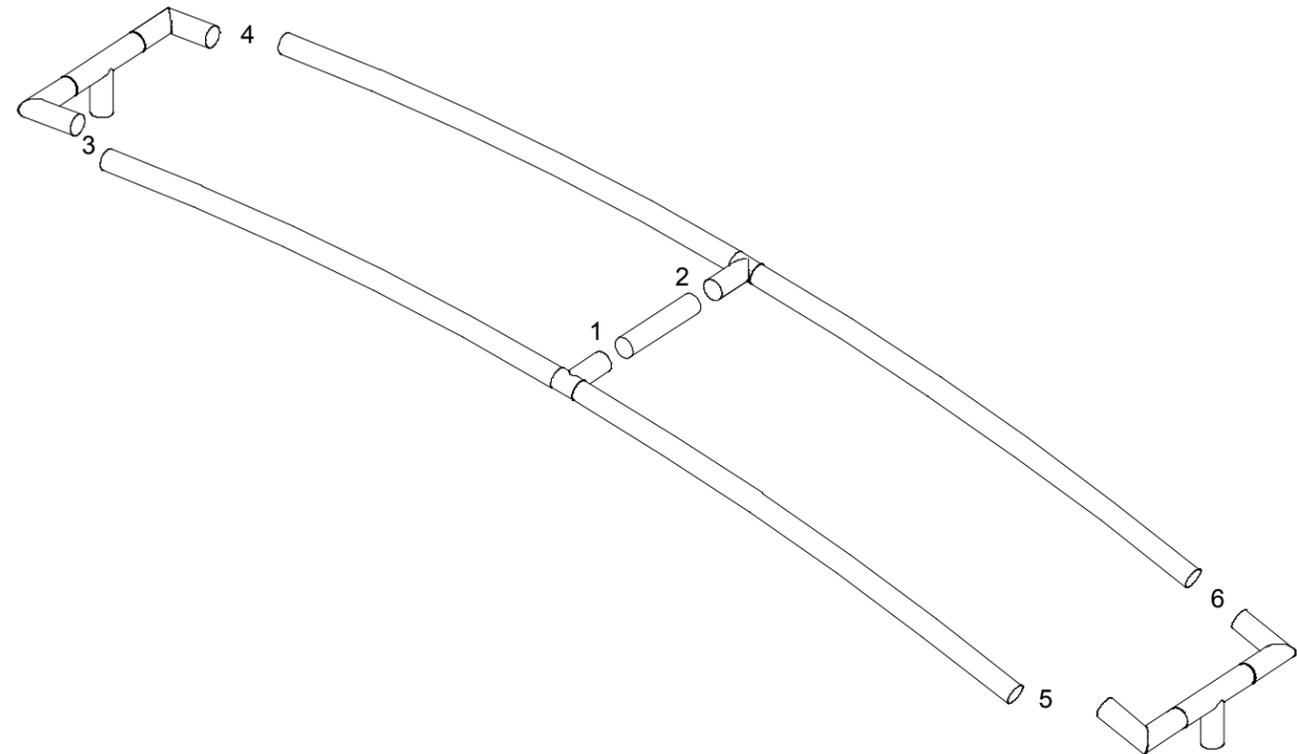

- 1) Use care when cleaning aluminum extrusion or acrylic inserts. Use only non-abrasive cleaners.
- 2) Retain all packing material. It will make re-packing much easier and will reduce the likelihood of shipping damage.

Connections are made by holding the button down and sliding the red tube into opposing tube until the connection is made. To disassemble push button and pull or twist extrusions apart.

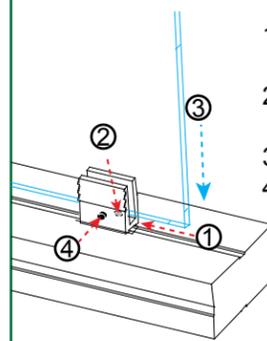

- Steps:
- 1) Assemble Aero Frame parts labeled [] through [] together in numerical order, as shown.
 - 2) Apply Pillowcase Graphic to assembled frame.

Steps:

- 1) Attach Header Graphics to horizontal [4A] using A10 clamps. See **Header Attachment** detail.
- 2) Connect Canopy Mount to vertical [2]. See **Vertical Canopy Mount Attachment** detail.
- 3) Attach Canopy Mount to horizontal [4A] using V4 connector. See **Horizontal Canopy Mount Attachment** detail.
- 4) Place Aero Frame onto canopy mounts as shown.

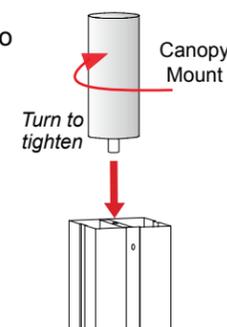

*** Header Attachment**

- 1) Slide A10 connector into groove of extrusion.
- 2) Tighten set screw to secure A10 to extrusion.
- 3) Insert Wing into Clamp.
- 4) Tighten knob to secure wing in place.

*** Vertical Canopy Mount Attachment**

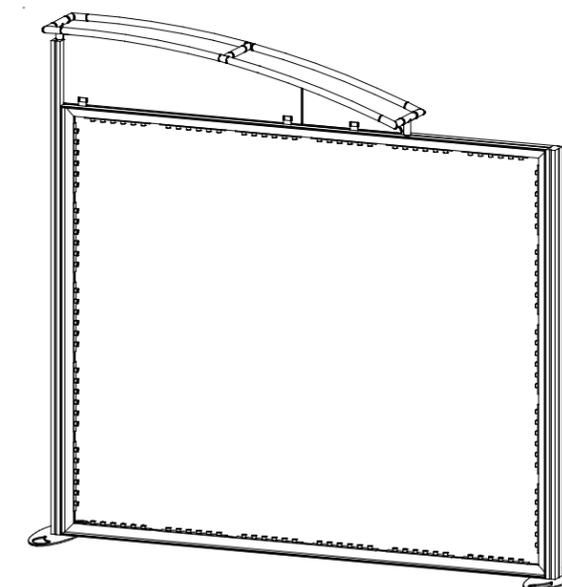

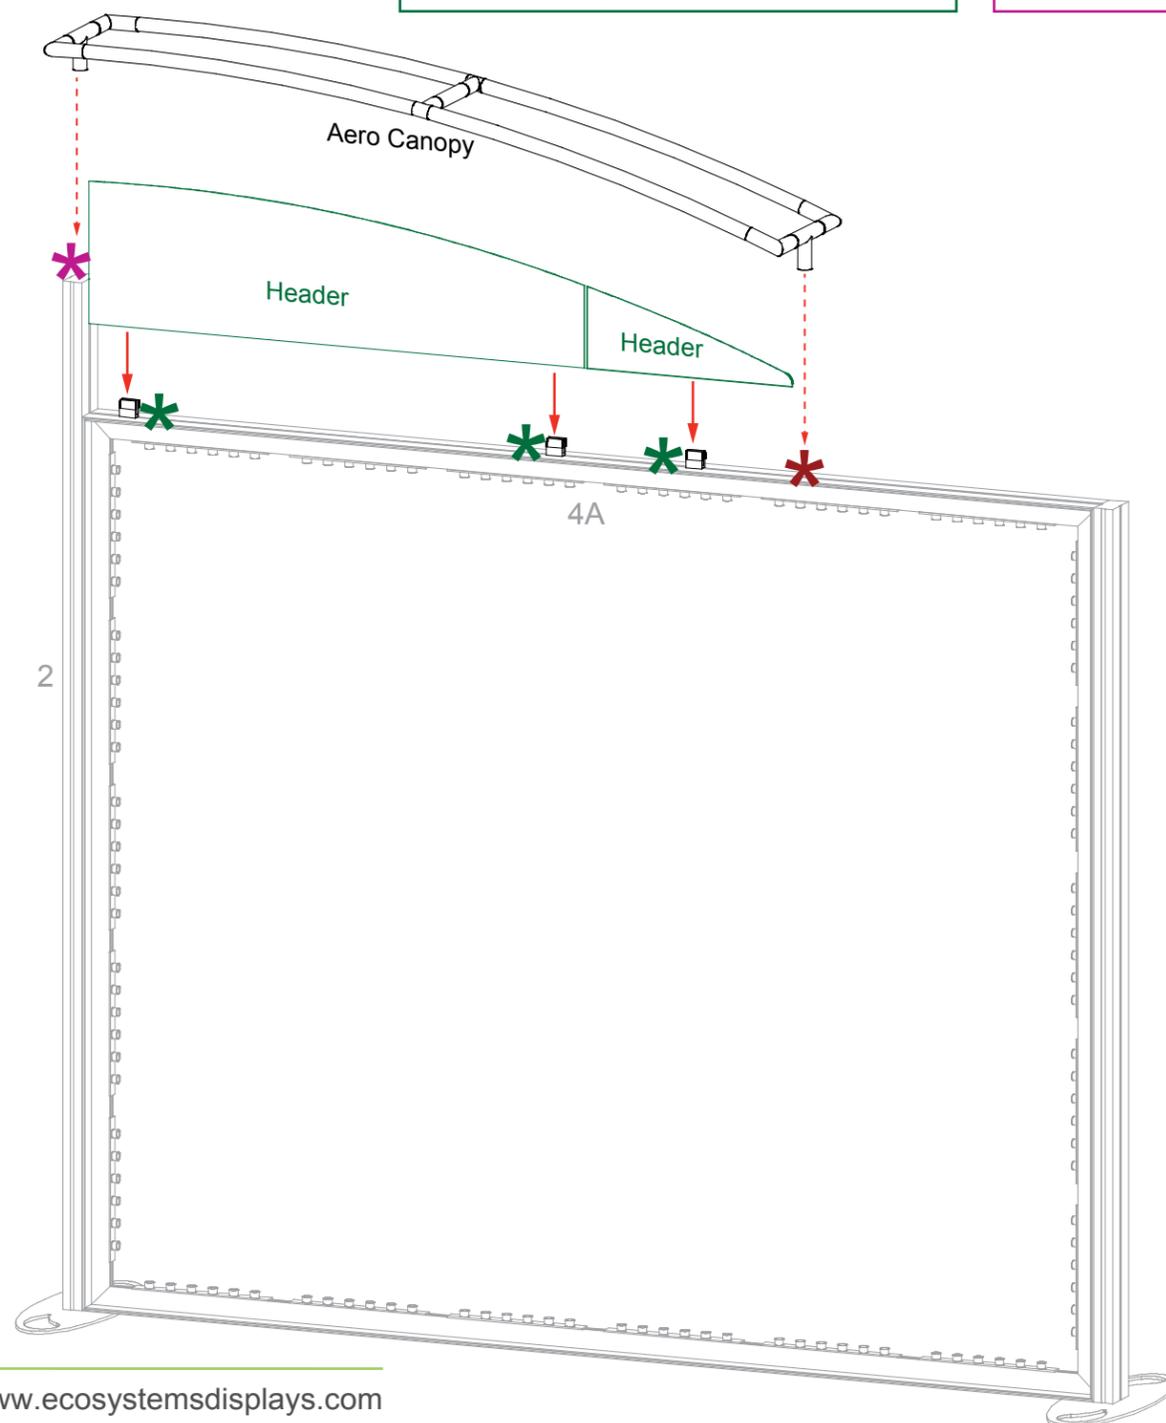

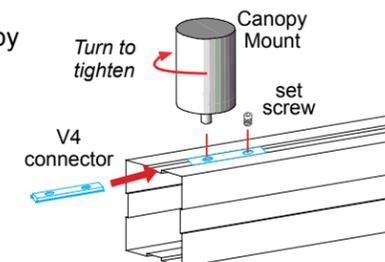

Insert Canopy Mount into threaded hole in top of vertical extrusion. Turn barrel clockwise to tighten in place.

*** Horizontal Canopy Mount Attachment**

Slide V4 connector into groove of extrusion; tighten set screw to secure connector in place.

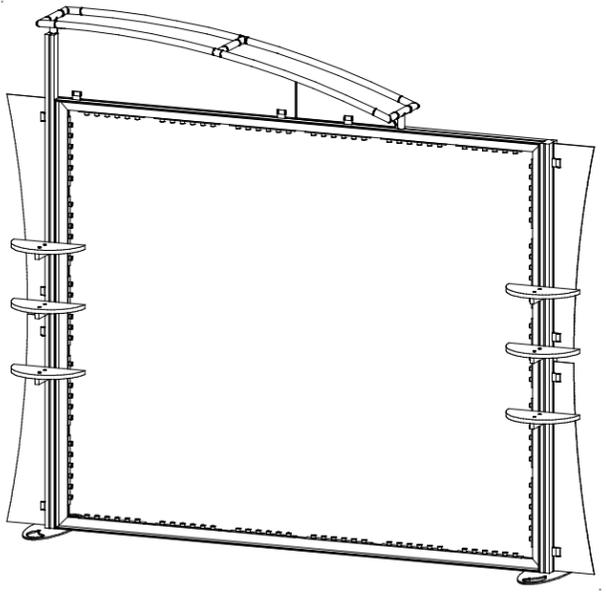

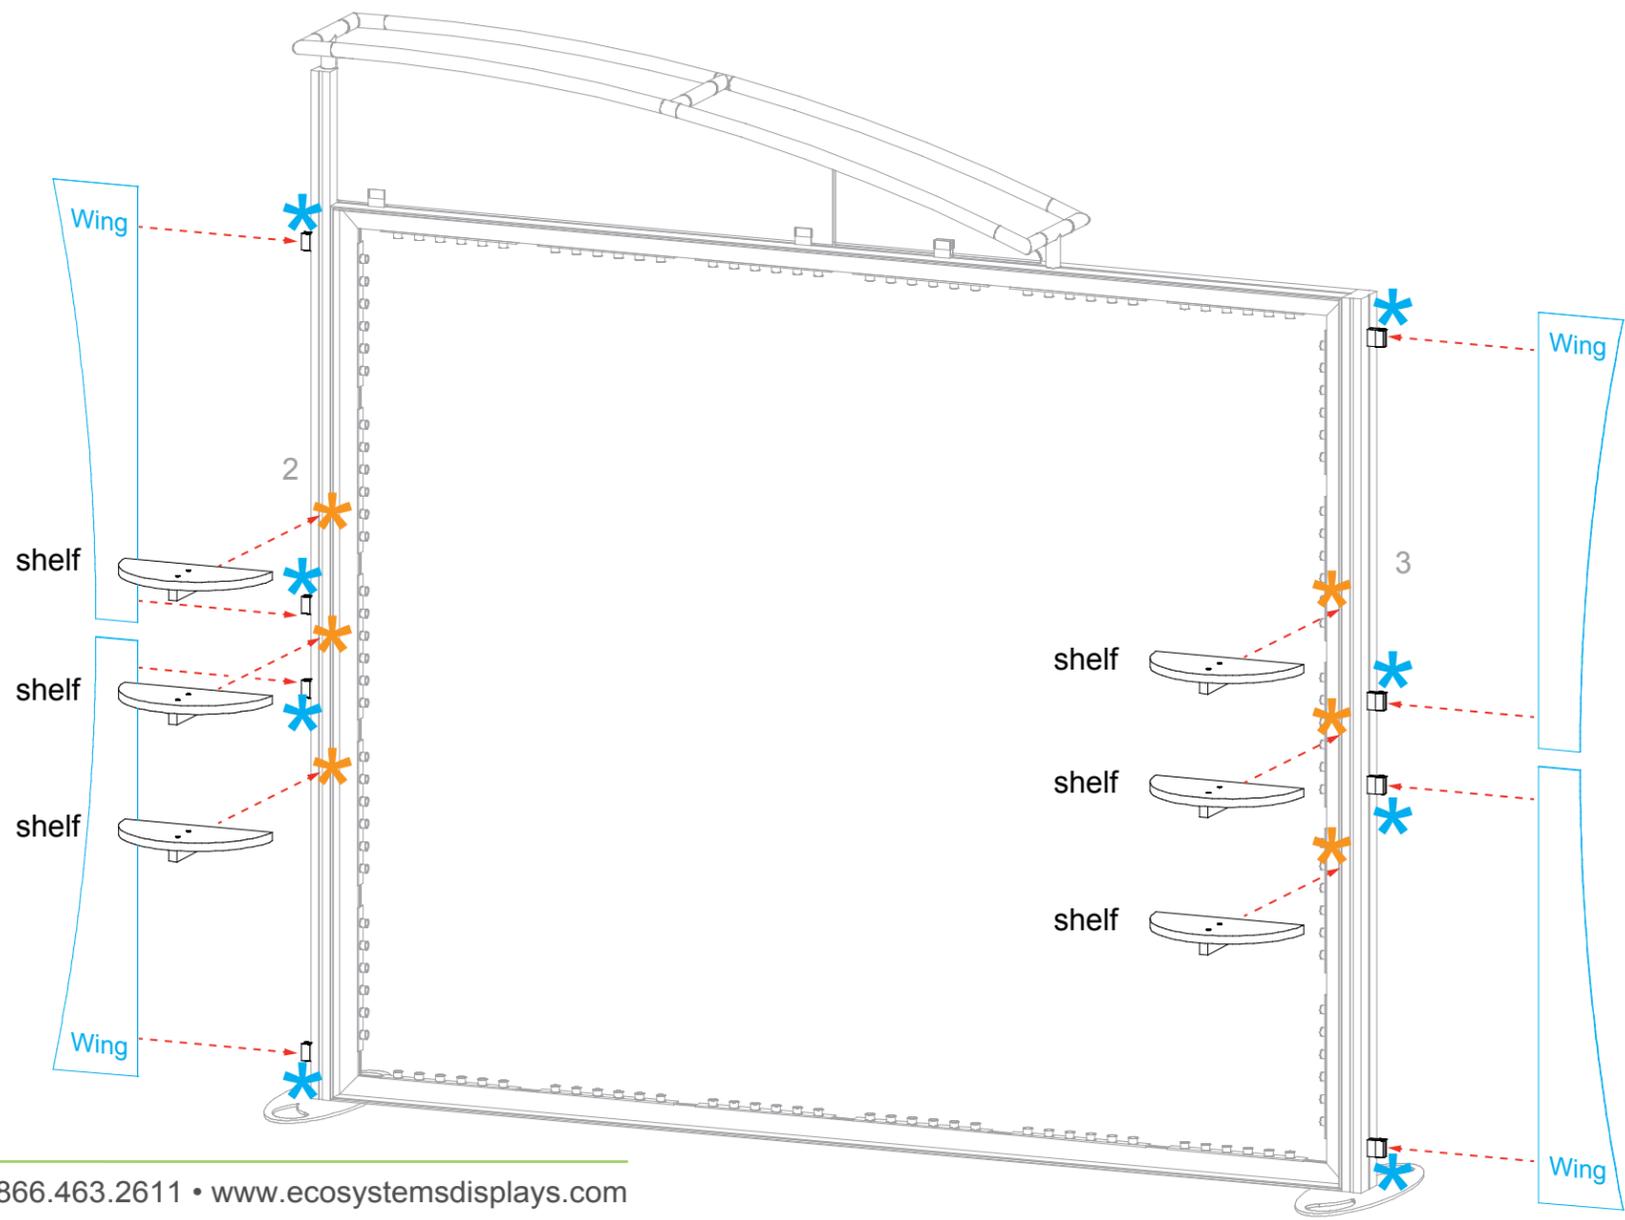

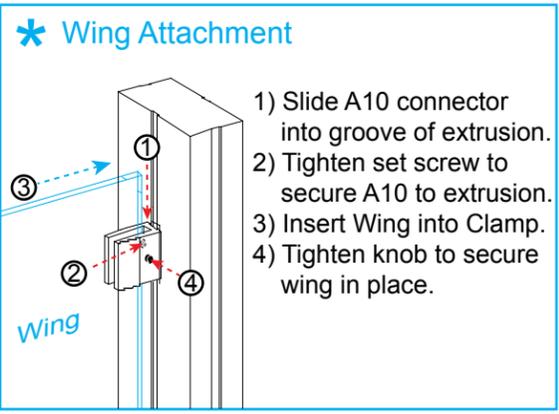

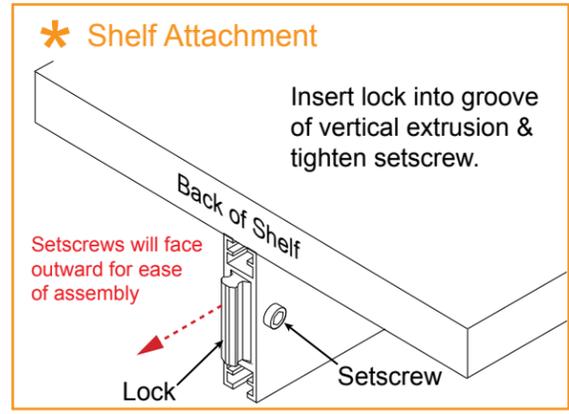

Attach Canopy Mount to V4 Connector; turn barrel clockwise to tighten in place.

When assembled

Steps:

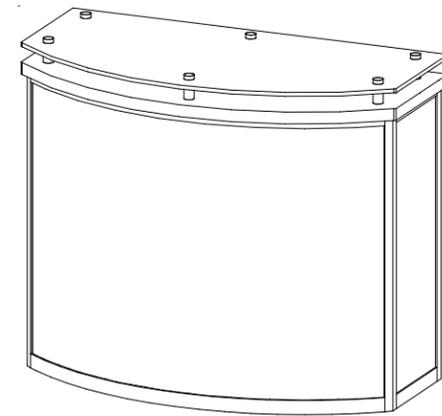

- 1) Attach Shelves to verticals [2,3]. See **Shelf Attachment** detail.
- 2) Connect Wings to verticals [2,3]. See **Wing Attachment** detail.

When assembled

Item	Qty.	Description
1	1	38.029" GS220 Vertical Extrusion w/ Hinges
2	1	38.029" GS210 Vertical Extrusion
3	1	38.029" GS210 Vertical Extrusion
4	1	38.029" GS220 Vertical Extrusion w/ Hinges
5	1	34.446" Z45 Vertical Extrusion w/ Door Stops
6,6A	2,2	12.5" Z45 Horizontal Extrusion
7,7A	1,1	45.831" Z45 Horizontal Extrusion
8,8A	1,1	50.521" Z45 Curved Horizontal Extrusion
--	4	18" Shelf Support

- Steps:
- 1) Attach horizontals [6,7,8] between verticals [1,2,3,4].
 - 2) Slide infills between verticals [1,2] [2,3] & [3,4], with Velcro facing inward.
 - 3) Attach horizontals [6A,7A,8A] between verticals [1,2,3,4], securing infills.
 - 4) Connect doors to verticals [1,4]. See [Door Connection](#) detail.
 - 5) Connect **shelf supports** to Velcro on infills; set Shelf on top of supports.
 - 6) Place counter top onto assembly & lock into horizontals [6A]. See [Counter Top Lock](#) detail.
 - 7) Screw standoffs into counter top, then attach plex top, using screw caps.

Completed Assembly
